

Concept and contents

As of 1 January 2004, sole responsibility for the implementation of Annex VII of the GFAP rests with the BiH authorities. This is the result of a number of activities and reforms undertaken in the last years to create a sustainable framework for domestic leadership on Annex VII.

This implies, inter alia, that the citizens of BiH will now have to deal with new partners in the process of exercising their rights under Annex VII. In order to provide basic information – including contact addresses to which BH citizens can refer Annex VII-related inquiries – the BiH Ministry for Human Rights and Refugees, in cooperation with the Office of the High Representative, produced a press advertisement and a leaflet with the aim of informing the citizens of BiH on the recent transfer of responsibility.
