**FBiH security
officials
meeting**

Croat Radio Herceg Bosna – At the initiative of the FBiH Interior Minister **Mevludin Halilovic**, a meeting was held in Sarajevo on Monday attended by the representatives of FBiH intelligence service, Sarajevo Cantonal MoI and FBiH MoI police administrations. Participants estimated that the recent events in FBiH, especially in Sarajevo, made situation more complex and that citizens rightfully expected authorized authorities to undertake measures to prevent similar incidents and disclose perpetrators of the committed incidents. It was also noted that there was a need for closer cooperation between FBiH and Cantonal MoIs, and Coordination Team for fight against organized crime.

FTV – This was the first such meeting with Directors of Police and Administration after 6 months. EUPM commissioner **Sven Frederiksen** initiated the meeting.

Primary focus of discussion was a need to change internal Interior Ministry's regulations and minister Halilovic was asked to withdraw his version of the rules of service. It was also discussed what were relationships between minister and Director of the agency and EUPM clearly stated that any further obstruction in functioning of the institutions will be considered as anti-Dayton acts. EUPM spokesman **Jon Oskar Solnes** underlined: *"Minister Halilovic was given 6 clear tasks and if they are not met than we shall talk again"*. It was agreed that regular weekly meeting should be organised with agreed minutes submitted to the EUPM. Commission for monitoring of implementation and changes of the Federation Law was also appointed. Discussion was also focused on both recent security problems in Sarajevo Canton after several explosion and problems arising from case with commander of special unit **Zoran Cegar**.

Oslobodjenje pg. 4 'Strengthen fight against terrorism', **Dnevni Avaz** pg. 2 also reported on the meeting.

Analysis on security situation in FBiH	Croat Radio Herceg Bosna, Dnevni List page 8, "<i>Less homicides, more drug traffic in FBiH</i>", by De.L., Vecernji List page 3, "<i>Less homicides, more drug traffic</i>" – The analysis of the security situation in FBiH showed that in the last six months, with an exception of one case, there was neither increase nor decrease in crimes, traffic security and public disorder cases. The analysis was made by the police administration of the FBiH Ministry of Interior [MoI] based on the reports by Cantonal and FBiH MoIs. Analysis concluded that the percentage of the increase in the crimes in last six months in comparison with the same period in 2002 was minimal, which proved that fight against crime required other society's structures to be involved.
EUPM dismisses criticism	Dnevni List (page 4, by S.K.) carries that the EUPM in BiH issued a press release yesterday in which they stress that they noticed in weekend issues of 'Dnevni Avaz' statements against the EUPM Mission in BiH given by one politician. The EUPM press release says that they welcome public and political debate on the establishment of the rule of law in BiH, however, they continue to focus the basic goal and that is approaching of the BiH Police to European standards. The EUPM press release stresses that they do not tolerate violating of the constituency in the Republika Srpska and that they supervise operative procedures and managing of the police in the whole BiH including the RS. Sarajevo dailies also carried the press release.

Federation TV slams Dnevni Avaz for linking it to Sarajevo blasts	FTV, Oslobođenje pg. 7, Dnevni Avaz pg. 8, Dnevni List page 4, <i>“FTV needs protection of international institutions”, by S.K.</i> – In connection with an article in Monday’s issue of the Sarajevo-based Dnevni Avaz, the collegiate body of BiH Federation Radio-TV has issued a statement. The collegiate body has condemned the article, which says that journalists and editors of the news and current affairs programmes on Federation TV are accomplices in several recent terrorist acts in Sarajevo. Dnevni avaz has published the article headlined “Lagumdžija’s junta caught red handed” on page nine of the issue. The article is written by Fatmir Alispahic as his public response to Oslobođenje . The article suggests in an obvious and very dangerous manner that – with its Dileme current affairs programme, which discussed calls for early elections and the current situation in the country – Federation TV is at least a co-organizer of the latest terrorist attacks in Sarajevo. Every form of private media has the right to have its own editorial policy, just as every individual has the right to have an opinion about our programmes. But the Federation TV collegiate body regards statements that we are linked to terrorists as a form of public lynching of journalists and editors of news and current affairs programmes only because they are doing their job. Federation TV demands that the relevant domestic and international institutions protect it from this and similar forms of slander aimed at preventing it from doing its duty as a public broadcaster to offer various topics and points of view about the topical events in BiH to the public. Federation Radio-TV will file libel charges with the relevant court in connection with the mentioned slanders.
Statement of Day: Zlatko Lagumdžija	Dnevni List (page 2), Statement of Day: <i>“The current authority stands behind the terrorist attacks”, by Zlatko Lagumdžija, President of SDP BiH.</i>

SDA's Palavric responds to Lagumdzija	Dnevni Avaz front page, pg. 2 'Lagumdzija impedes investigation' – Responding to Lagumdzija's claims that the current authorities are standing behind terrorist attacks, SDA Vice-president Suada Palavric said that the SDP leader was largely impeding the ongoing investigation into the series of explosions by giving too aggressive statements. She added that each government wished to complete its mandate in peace.
Investigation into bomb attacks in Sarajevo	Nezavisne Novine, cover and pg. 5, 'BiH Prosecutor's Office to take over the investigation into bomb attacks in Sarajevo' – Spokesperson of Sarajevo police, Ljiljana Sakic, stated that forensic experts from the Interior Ministry of the Federation of Bosnia and Herzegovina established which sort of explosive device was used in the explosion in front of the house owned by Hilmo Selimovic, Director of Sarajevo brewery. However, no further details are to be disclosed at the moment, owing to ongoing investigation. NN also received a confirmation from the Interior Ministry of the Federation of Bosnia and Herzegovina that the Prosecutor's Office of BiH may take over the investigation into last week's bomb attacks in Sarajevo.

However that did not happen thanks to the decisions made by BiH Presidency'</i> – said Nicholl. He added that new management board at its first session already made several decisions. According to the Law on Central Bank, management board appoints Governor, and at the session on Monday board members re-appointed Peter Nicholl with the mandate until the end of 2003. He told journalists that the activities related to the sale were conducted in coordination and with the agreement of SFOR and that the sale would be public, on the basis of the RS Government decision and standard conditions for the trade in arms and military equipment. <i>"The fact that we had a war here eight years ago means that both entity armies have a large stock of arms and equipment which do not comply with the norms stipulated by the sub-regional arms control agreement, according to Annexe 1B of the Dayton Agreement,"</i> Cavic said. He said that the RS Army would cut the number of locations where arms and equipment are stored, and improve the conditions in which they are kept, ensuring that there are no more incidents or tragic events.

SCG – BiH relations

BHTV – BiH lawsuit against the Serbia and Monte Negro (SCG) has been recently very often interpreted as a good for exchange. Furthermore, recent speculations point to NATO interest regarding the withdrawal of this lawsuit: in that case, SCG would drop the lawsuit against NATO. To exclude the suspicions, BHTV1 has investigated the issue. After the non-official offerings for solving the issue outside the courtroom, Serbian Minister of Justice **Vladan Batic** stated that the Serbian commission for collection of the documents on human rights' violations was in the dispose of the new documents that would change the picture of war in BiH. In that regard, member of BiH Presidency **Sulejman Tihic** stated: *"If Batic has some other documents than we do, it would be nice from him to show them. And why is he so afraid of the trial then, if he has such documents. It is obvious that he doesn't have them."* On the telephone call, Batic said that the evidences that this commission have collected unambiguously proved a number of expels, ethnical cleanings, rapes and murders of Serbs in FBiH. SCG authorities are aware of the fact that one of the conditions for joining the Partnership for Peace is dropping the lawsuit against NATO before the ICTY. In this regard, NATO spokesman stated: *"I have no idea what the countries in the region are working on and what they expect; I can only speak in the name of NATO. And as for NATO, the lawsuit process is in progress. NATO has no intensions for making the pressure in that regard."*

Dnevni List (front and page 2, by **FENA**, *"Evidences on crimes against Serbs are in archives of ministry of justice"*) – also carries that the Serbian Justice Minister, **Vladan Batic**, told TANJUG news agency yesterday that the story on war crimes *"is not as black and white"* as representatives of the authority of Federation of Bosnia and Herzegovina are trying to present. Batic further explains that the former Federal committee for collecting data on crimes against humanity and international law is now active with the Serbian Justice Ministry and it has a respectable archives *"with evidence that persecutions, ethnic cleansing, tortures, killings and deportation to camps were done against the Serbs too"*.

Vecernje Novosti pg. 4 'Archive – witness'; **Blic** pg. 3 'I have proofs for crimes over Serbs' also covered the issue.

DL's editorial on situation in BiH, initiative for early elections	Dnevni List (page 6, by <u>Slavo Kukic</u>, <i>"Achievements of BiH surgery"</i>) – an editorial in which the author gives his view of the situation in BiH in light of recent events and initiatives for early elections in BiH. Kukic says there are plenty of reasons for early elections out of which the increasing number of unemployed and growing prices are, according to Kukic, the main reasons for early elections, as the life becomes more difficult. <i>"In a normal country these would be the type of arguments one would resort to. Unfortunately, we are far away from that approach. Because, far ahead of these arguments are issues such as how to survive in conditions of growing terrorism, crime as way of life which is being given rights of a citizen through institution etc. All of which have been taken from drawers with the return to authority by SDS-HDZ-SDA troika",</i> says Kukic. The author also warns about the attacks against the first man of the Federation of Bosnia and Herzegovina Customs Administration (Zelimir Rebac) saying that <i>"Radonicic's media spithouse"</i> joined the operation by <i>"showing that the things are not as shiny as Ashdown and his company, by siding with Rebac, are trying to present".</i>
Nezavisne Novine: Interview with Nikola Spiric	Nezavisne Novine, pg. 4, 'Early elections is the only way out for BiH' – In an interview to NN, Nikola Spiric, Chairperson of the House of Representatives at the BiH Parliamentary Assembly, said that the only rational democratic way out from the current situation in BiH would be early elections. According to him, <i>'if elections were not convened, the technical alliance of all criminals of all colours and political shapes would remain on the scene'</i>. Asked to comment on the work of the High Representative to BiH, Paddy Ashdown, Sprici said that HiRep made some good moves, but also some major mistakes. <i>"I think that after a review, international community will take a critical approach towards BiH and Ashdown as well. The best possible solution for BiH will then be found."</i>

Dodik on Kalinic	Dnevni Avaz pg. 4 'By a concessive approach to the international community, Dragan Kalinic is buying his own liberty' – <i>"Kalinic has put the RS National Assembly into a position to serve SDS by giving concessions to the international community at the cost of RS and its citizens, buying in exchange his own liberty as well as preservation of the SDS-PDP-SDA coalition,"</i> SNSD leader Milorad Dodik told the newspaper.
President of HDZ Croatia Sanader in tourist/private visit in Herzegovina	Vecernji List (front page, <i>"Sanader: Zagreb stays silent about Croats in BiH"</i> and page 5, <i>"We shall not have tied hands towards Croats in BiH"</i>, by Ivan Kaleb) and Slobodna Dalmacija (page 6, by Drago Vukojevic, <i>"Coalition only after elections"</i>) carry that the President of HDZ Croatia, Ivo Sanader, with his party colleagues paid a tourist visit to Herzegovina yesterday, meeting with representatives of HDZ BiH last night. Sanader stated that within the preparations for the coming elections in Croatia, HDZ Croatia will certainly prepare a good program and good candidates for the Croats living outside of Croatia and HDZ Croatia will demand from the Croatian Government to make an agreement with other countries so that these Croats can vote. SD carries that asked about the relations between HDZ Croatia and HDZ BiH Sanader stated that HDZ BiH is an autonomous party and that the HDZ Croatia leadership is supporting all moves to the benefit of the Croat people in BiH. VL carries on the same issue that Sanader stated that they absolutely respect HDZ BiH decisions because they were passed legitimately at the Convention and the policy of HDZ BiH must not be conducted in Zagreb but in BiH. With regard to the Dayton Peace Agreement (DPA), Sanader said that the DPA is not perfect, however, it stopped the war in BiH. According to Sander, the DPA offered some possibilities, which were not used, not even by the representatives in BiH, and that late Croatian President Franjo Tudjman was right when he signed it.
