

HR Schmidt meets Hemofarm CEO Saša Urošević

High Representative Christian Schmidt met today in Banja Luka with Hemofarm CEO Sasa Urošević and his associates. On that occasion, he commended the company's role in protecting public health by ensuring the safety of pharmaceuticals on the BiH market.

"Any challenge to BiH Pharmaceuticals Agency is a challenge to well-being of entire BiH population, and RS too. Attempts to undermine this state institution constitute a serious political and legal challenge and would create overwhelming problems for citizens," said the High Representative.
