

CLAIM: The High Representative's decisions will affect the outcome of the elections.

FACT: October 2 decisions of the High Representative refer to the functioning of FBiH institutions, streamlining of government formation procedures, alleviating blockades and abuse of safeguarding mechanisms in legislative as well as judicial bodies. They in no way affect the will of the voters and the outcome of the 2022 General Elections.

Elections belong to the voters. The High Representative has repeatedly assured that he will insist on respecting and implementing the will of the voters in the government formation process, which has not been the case in the FBiH in the past four years.
