Acting High Representative Crishock attends traditional grape harvest in Međugorje

“*Winegrowing is part of Herzegovina’s identity and way of life. Events like the grape harvest are a wonderful opportunity to bring people together, celebrate a tradition passed down through generations, and introduce more visitors to the landscapes, flavors, and hospitality that make this part of Bosnia and Herzegovina so special. They also remind us of the great potential that local traditions and products can bring to tourism and the economy,*” said AHR Crishock, who, at the invitation of BiH Council of Ministers Chairwoman Borjana Krišto, joined Ambassadors and Heads of Missions at a gathering marking the traditional grape harvest.
