News Summary

Izetbegovic and other Bosniak officials connected with terrorists – Dani

Sarajevo magazine Dani reported that BiH Presidency Member Alija Izetbegovic and a large number of Bosniak officials were connected with the terrorists responsible for violent criminal actions around the world. In September of 1995, Austrian Anti-terrorist Police entered the building of the humanitarian organization Third World Agency in Vienna, which was established by Sudanese diplomat Al Fatih Hasanein. The police discovered documents proving that \$350 million originating from Islamic countries was given to the radical Islamic movement in BiH. Dani quoted Austrian investigation officials as saying that Hasanein has close connections with Izetbegovic and several of his associates. The US considers Izetbegovic's assistants to be radical Islam followers who are against the US and attempt to influence the BiH Army.
