Banjac said that Mr. Dodik and SNSD, "... in a manner of chess players – by sacrificing a chessman, are trying to win a game which they lost. That means that Dodik is offering a loss of a deputy mandate in order to remove Dr. Poplasen from the electoral list, i.e. the office of the RS President. This is not in accordance with the electoral rules and we consider it to be an obstruction which might have been planned..." Banjac also said that that the SDS and the SRS cannot be held responsible for the fact that RTS transmitted Poplasen's interview.

The OSCE issued a press release stating that press reports, as well as reports from OSCE field offices, clearly indicate that members, supporters and even officials of the SRS and the SDS are threatening OSCE employees, by encouraging demonstrations against the IC and intimidating local radio stations. This was the case for Radio Pan in Biljeljina and in Sokolac which were forced to transmit false information on passing of decisions and on intentions of the EASC. The OSCE wants to state clearly that it will not tolerate any kind of threat directed against its staff.

Head of the OSCE Mission, Robert Barry, addressed a letter to Dr. Poplasen asking for the sources of the demonstrations and threats to be investigated.
