Banja Luka - Three Serb parties, the Serb People's Party, the Democratic party, and the Serb Peasant Party held a joint press conference, underlining that they are against the holding of parliamentary and presidential elections by the principle of electoral units, which was imposed by Klikovic's Government, because in that case, the election results would be known before the actual holding of elections.

Trebinje - With regard to the cadre changes in the local police, Mayors of Trebinje and Bileca, Vucurevic and Vjekovic, respectively, gave statements to the local Trebinje radio, which were not aired. Therefore, SRT Banja Luka, in order to inform the public and do their job professionally, reported on these statements. They said that the cadre changes were expected, since the legal bodies in the town are prevented from carrying out their duties by a group of people who receive orders from the top. The group illegally trades with the Federation with cigarettes and other goods refusing to pay taxes and custom fees. This way the RS has lost about 300,000 dollars this year. The group holds all the strings in the town. They were even awarded for bravery since they allegedly took part in the war, as if they were the only ones fighting and shelling. They have so much money now, while VRS soldiers are starving, pensioners have not received their pensions, and refugees don't have an accommodation. If they would give half of the money they have stolen, soldiers would have had their wages and pensioners their pensions.

Prijedor - Former soldiers and others who took part in the Bosnian war and the World War II, attended a memorial ceremony of the second anniversary of the fall of Sanski Most, and paid tribute to several hundred victims of the aggression and 100,000 of exodus. Now, there are about 40,000 people from Sanski Most who either fled abroad or stayed in Prijedor and Banja Luka. Old Sanski Most people remember that the same thing had happened in 1941 when about 5,000 people were killed by the same enemy that attacked this town two years ago.

Mrkonjic Grad citizens also paid tribute to their victims killed by Croats who stormed into the town, and controlled it until Feb. 4 1996 when it was returned to the RS.
