RT RS News Summary:

RTRS report on its 44-day election coverage; IMC rejects all accusations of biased RTRS election programming (02:13)

In a review of its election campaign coverage, RTRS presented a tally of all the programs and political parties which appeared on the station during the election campaign period. The total came to 32 parties and one coalition. In eight editions of the show "Presentations of Political Units" parties were given ten minutes each to present their platforms. On 16 and 17 October, RS presidential candidates were on the air. From 19 October until 6 November, a total of 12 TV debates on topics including the Dayton Peace Agreement, human rights, reconstruction, privatisation and investment were organised. RTRS, together with TV BiH, co-produced the impressive Vi Pitate (You Ask) in Banja Luka and Sarajevo studios of the respective media.

In special block segments, RTRS presented the campaign activities of political parties as well as political party commercials. The SDS, DSP and SDP BiH all filed complaints with the IMC alleging that RTRS failed to ensure equal access to each political party. The IMC rejected their grievances and ruled that they were unfounded.
