News Summary

Only military monitors can participate in UN missions - RS Defense Ministry

The RS Defense Ministry believes that media from the RS and BiH Federation reported different conclusions from the 19th session of the BiH Standing Military Committee. Regarding the participation of BiH forces in UN missions, members of the Committee decided not to send military forces from the RS and BiH Federation, concluding that only military monitors could be sent. Discussion on the participation of BiH forces in UN missions will continue.

Jelavic on position of Croats in BiH

In an interview for Sarajevo daily Oslobodjenje, BiH Presidency Chairman Ante Jelavic warned of political processes that threaten the equality and constitutionality of Croats. Political leaders of BiH Croats claim that the most powerful trends of writing Croats out of the constitution are Bosniak attempts at unitarianism and centralization of the BiH Federation. The use of the Croat language and Croat national signs is forbidden in parts of the BiH Federation where Bosniaks are majority. If that extremely negative process is not stopped soon, the Croat political leadership and Croat nation in BiH will have a legal right to make a decision on the protection of their constitutional rights.
