News Summary

Peace Implementation Council meets at UN General Assembly

A BiH Foreign Ministry delegation led by Minister Jadranko Prlic participated at the UN General Assembly Session in New York on Wednesday. The Peace Implementation Council Steering Board also held a session on Wednesday. G-8 countries and EU representatives reaffirmed their support to a united BiH and the development of central BiH institutions instead of entity institutions. High Representative Wolfgang Petritsch asserted that he is not satisfied with the pace of peace implementation in BiH, but is also aware there will be problems in the reconstruction of a country that has been through a war. Prlic stated that there was much talk about the problem of corruption in BiH. In all contacts with international diplomats, the BiH delegation are trying to reassure that international organization funds and financial assistance to BiH were not embezzled, Prlic stated

International Organizations in Mostar hold press conference on Mostar street blockade during ICTY investigators' visit

Representatives of international organizations based in Mostar held a press conference on Wednesday with single subject on the agenda, Tuesday's traffic blockade in Mostar. The reason for the operation was a visit by ICTY investigators to Mostar to allow them to perform their investigation without any complications, UN Mission spokesperson Stefo Lehmann stated. Lehmann commented on Tuesday's statement by Mostar Mayor Ivan Prskalo

who said that the SFOR blockade prevented him from coming to work and that he was submitted to verbal threats from an alleged Mujahedin in East Mostar. Lehmann asserted that, in this case, Prskalo should have reported the incident to the police instead of giving a paranoid statement to the media.
