News Summary

Petritsch organizes visit by Canadian, French, Turkish, Norwegian and British Ambassadors to HN Canton municipalities

High Representative Wolfgang Petritsch organized a visit for Canadian, French, British, Turkish and Norwegian Ambassadors to HN Canton municipalities. They visited Kosora, Mostar Southeast Municipality, where a large number of refugees returned, including the recent return of Croat refugees. Head of the OHR office for Reconstruction in Mostar, Kristof Gostonyi, said that an increased interest by refugee families to return to this area has been registered. According to Gostonyi, more funding for reconstruction of houses is needed for return. Head of Southeast Mostar Municipality Sead Salcin stated that "in order to have self-sustainable return, we need further help from the International Community." The ambassadors also visited 34 returnees of Serb nationality living in tents in the Cipuljic community and Bosniak returnees in the village of Vlasinje, Jajce Municipality.

Agreement on return of 10,000 Bosniak families to RS another Dodik deception - SDA

The SDA considers that the agreement on return of 10,000 Bosniak families to the RS constitutes another deception by RS Prime Minister Milorad Dodik and an attempt to neutralize CD Coalition requests for RS Government restructuring. Last year's promise for the return of 70,000 Bosniak families to the RS and reconstruction of the Banja Luka Ferhadija mosque was not realized. The return of property to Bosniak municipal delegates is another unrealized promise from Dodik.
