**Sarajevo** – One of the more important decisions at the Permanent Military Committee session which convened today, was a conclusion to sign an Agreement against the use of mines. Council members further discussed a suggestion to grant amnesty for all those who illegally keep arms in order to urge them to give them back. Discussion was held on BiH participation in the NATO program for securing a more stable peace throughout BiH. The Committee failed to agree on the decision concerning the appointment of BiH military attaches.

Following this meeting, the BiH Presidency session was held in order to harmonise standpoints on the Special Relations between BiH and Croatia, but without success. If we want to preserve BiH, we have to enable the special ties of the RS with FRY and of Federation with Croatia, Momcilo Krajisnik, Presidency member told the press. This has to be done with agreement of all three peoples and both entities. I myself will never participate in a decision which would have to be pressed on somebody – in this case on the Moslems, then there will be neither peace, nor special ties if Moslems-Bosniaks do not agree with it, he added. In a further statement Krajisnik said that he will never work against BiH although I was not happy about the BiH state, since we wished to have our own state and to be united with FRY, but if we have accepted DPA, I wish it to be implemented in all its aspects, Krajisnik said looking amiably into the camera.
