OHR representative Clages said that we fully agreed that similar legislature is required in Republika Srpska, a legislation which must have the same standards like legislation in the Federation. The laws on privatisation were also on the agenda, as well as the law on forming new municipalities. Federal representatives agreed to accept the arbitration of the OHR in order to speed this process up. The president of today's forum, the US Ambassador Kauzlarich said that there is still a lot of work to do, and that the international representatives will continue discussions with the Federation Officials in order to fulfil these agreements.

Sarajevo – BiH Foreign Affairs Minister Prlic said that the Presidency and the Federation officials must declare officially as soon as possible about the proposals by the Croatian Government on establishment of the special relations with BiH federation. As Prlic said, the BiH Constitution covers the establishment of special relations with neighbouring countries. The chief of Zubak's cabinet Raguz said that refusing the proposal is not good, because that proposal has grounds in the Washington agreement and the DPA. US Ambassador to Croatia Galbriath said that the monetary and customs union of Croatia and the Federation would not be logic. In that case, Republika Srpska would have a right to establish special relations with FRY, by the same principal. Zagreb does not want to comment on the refusal before the official reply arrives.

Sarajevo – The State Reserves Directorate (SRD) Manager Kurtovic replied to the letter from HR Westendorp regarding the CAFAO reports on corruption. In his answer, Kurtovic says that CAFAO did not find any abuses in the work of the State Reserves Directorate, neither tax embezzlement, nor any other evidence that might point out at a possibility that the SRD revenues were used for private purposes. Kurtovic also reminds Westendorp that there are no grounds for mentioning the CoM Co-chairman Silajdzic, and the former Minister of Finances Kikanovic.

Kurtovic stresses that mentioning the two of them in the context of orders and agreements is totally absurd. Kurtovic said that the purpose of these reports was to create an impression of corruption, and because of that those two reports were assembled together, although they are not related by any means. Kurtovic said that because of this, we recognise these reports as an ill-intentioned mischief.
