OHR representative, Garrod, however, condemned HDZ's decision, adding that they would be punished because of that, but he did not go into detail. BH Press reported that after the meeting with OHR today, RS members of the Commission for the BiH flag and the coat-of-arms finally decided not to cause further obstructions and take the six propositions which had entered the last round into consideration. The most acceptable solution for the flag for Bosniak and Croat representatives is the light blue background with geographic borders of BiH instead of the coat-of-arms.

Cazin - Marie Stopes International organised a discussion called The Steps of Hope on the processes of repatriation and the Open Cities Project that had been agreed in Sintra. They said that 80,000 people returned to BiH in 1996, whereas 10,000 less returned this year. Central Bosnian Canton is the region where the majority of refugees returned, and only 8,000 refugees returned to the RS. This process is very difficult to carry out because of a number of obstacles (isolation of the RS, economic situation, destroyed homes etc.), and there are still another 400,000 people yet to return.

The Catholic Archdiocese sent a protest to BiH TV condemning them for bringing Paraga, the President of HSP (Croatian Party of Law), to be their guest, although they know very well that this person wants to stain the HDZ reputation just before the elections. Therefore, the Archdiocese thinks that this act was a pure anti-election campaign targeted against HDZ, and a shameful act for a TV which calls itself the Television of Bosnia and Herzegovina. They said that Croatian people in BiH can only be pleased that HRT signal is strong enough to reach their homes.
