Split - The Presidential meeting between BiH President Izetbegovic and Croatian President Tudjman ended today. Details about opening Ploce harbour and transfer through Neum will be known in about three months. In the joint statement from two presidents, a new political formulation appeared which says: BiH is a state of two multi-ethnic entities. The reminder of the statement points out that BiH has state integrity; it is sovereign and politically independent; it's major population is officially called Bosniaks. Croatia asked for a policy of mutual trust, and both delegations appealed to media to revalue common life between two nations. The statement clearly concludes that Croatia and BiH want to establish the relationships on two levels: between the Republic of Croatia and the State of BiH, and between the Republic of Croatia and the BiH Federation. However, Croatia points out the relationships between Croatia and the BiH Federation, as concluded from the decision to make Ploce harbour disposable exclusively for the BiH Federation. Regarding the subject of war criminals, it was concluded that the two sides should remain objective according to involvement level of each side, and individuals. Both states confirmed the right of refugee return, although recent events in Jajce were not mentioned. Both presidents pointed out that the agreement was achieved without any involvement of the USA or Western countries. Minister of Foreign Trade & Economy Muratovic said that it is important to establish a customs office in Brcko, consisting of all three nation representatives. US delegation - Holbrooke, Galbraith and Gelbard, talked to the Presidents behind the closed doors, and they have had separate meetings afterwards.

Banja Luka - SRT wonders how it is possible to regain trust among the three nations in former BiH after the bloody civil, ethnic, and religious war, concluding that there is no way to have brotherhood and unity again. However, people should talk. Such talks were organised by The British Foundation for Eastern and Central Europe. RS and Federation representatives talked about their future. Kalinic, who represented the RS, condemned the Federation side for not sending their 'real' representatives (referring to the current leadership), adding that the DPA gives chances for reconciliation. 'The IC should not insist on reintegration of BiH, but on joint discussion between the two entities who live under the same roof.' He reiterated the RS position with regard to the civil war, adding that the best solution for BiH and its people would be in reconciliation and global amnesty.

They concluded that the situation is satisfactory and crime is decreasing. MUP energetically rejected Plavsic's statement that MUP is responsible for incidents that occurred after SFOR actions in Prijedor, saying that they had undertaken various measures in order to overcome the tough situation. The investigation of this case will prove who is backing Plavsic. MUP also said that Plavsic was invited to the meeting, but she did not come, which is strange because she pressed heavy charges against the MUP. Flash news:

SFOR and IPTF representatives who wanted to remain anonymous said for SRT that division of BiH will occur either peacefully or with a new war. The US Special Envoy, Shattuck stated for Dutch media that the DPA is not a blitz action but a long-term film, adding that although the signatories of the Agreement said that BiH will be a country with two equally respected entities, they considered reintegration as the only solution for BiH even then.

Gen. Crouch and HR Westendorp finally admitted that the Muslim and Croat side are those who undermine the

DPA, and we should thank them for this new situation, SRT reports. Holbrooke's threats to impose new sanctions against FRY demanding the hand over of alleged war criminals can be fatal for the Serbs in the RS and FRY, President of the Serb Radical Party, Poplasen said. 'They demand that Serbia commit aggression against their own people. This is blackmail. Foreigners want to solve their problems through bloodshed, and Serbs must prevent this,' Poplasen said, adding that the Serb struggle should not be targeted against the US, but against its policy.
