Sarajevo - After the CoM failed to fulfil the deadlines from Sintra regarding the laws of citizenship and passports, as well as the memorandum on airport openings, the Presidency is having similar problems regarding the deadline for establishment of the diplomatic network. In an attempt to overcome the problem a Presidency meeting was organised at the OHR. Serb representative Krajisnik was not present, but was replaced by BiH Deputy Foreign Minister Bozanic. OHR spokesman Bullivant said on this occasion that the HR reported to the Contact Group members on sanctions that will occur if both sides do not fulfil their Sintra obligations. A list of sanctions has been formed by international organisations representatives, but the details are confidential. Besides today's meeting at the OHR, a Presidency session was also planned, with an agenda to consider the list of measures for those who do not respect the Sintra agreement.

Sarajevo - The CoM session was supposed to be held today, but as explained by OHR spokesman Bullivant, it was cancelled because of previously scheduled obligations of the CoM members from RS, and family obligations of some members. The CoM co-chairman Silajdzic held a press conference today where he stated his views about the rescheduling of the CoM session. Silajdzic said that the session will be continued on Monday. Talking about problems on the session, Silajdzic said that the main reason for this delay is demand from the RS side to be the ones to approve citizenship documents, which would exclude the central authority from the process. Silajdzic said that such a decision would create a country out of an entity, which is opposite to the DPA.

Sarajevo - As reported by ONASA, BiH President Izetbegovic announced the preferences of the forthcoming meeting: Izetbegovic/Tudjman. Those preferences are the co-ordination of relationships regarding the Ploce harbour, transfer through Neum, BiH properties in Croatia, and state boundaries. Izetbegovic said that he was afraid of disappointment and that he did not have the feeling that the Croatian side was ready for fair agreements. ONASA also reported on Holbrook statements regarding the BiH. Holbrook said that at the previous elections, all three sides in BiH elected nationalists, so thus the dream about multiethnic BiH and Yugoslavia is dying. In the remainder of the statement, he said that the leaders of all three ethnic groups are nationalists of the worst kind. Holbrook said that Plavsic is in line as regards the DPA implementation, unlike Karadzic, and Krajisnik who support him.
