Sarajevo - The Quick Start Package has finally been endorsed by the BiH CoM and both Houses of the BiH Parliament, announced the media.

The report carried a statement by Deputy HR Michael Steiner who expressed his satisfaction that the first legislative act of BiH has been endorsed. Both Co-chairs of the CoM commented on today's session of this body in the same vein, assessing that the endorsement of the Package was of utmost importance for the entire BiH.

As to the most disputed law on custom tariffs, a temporary solution has been found until a unique tariff system is devised by the end of this year to correspond to BiH economic situation.

Following the CoM session, the BiH House of Representatives chaired by Ivo Lozancic held a session at the National Museum. Sejfidin Tokic, UBSD Vice President requested that the platform on foreign politics be included in the agenda, while Zlatko Lagumdžija proposed that the Parliament take a stand on the law on election of deputies, i.e. on the procedure to sanction war criminals. It was decided that these issues would be discussed at the next session.

After Deputy Co-chair of the CoM Neven Tomic briefed deputies on the Quick Start Package, it was put to the vote. With a majority of votes in favour and two against, the set of laws was endorsed.

The BiH House of Peoples has also endorsed the package by a majority vote. Deputies agreed on the formation of a tariff commission and an accord between the WB and BiH.
