Everything the Pope John II was saying and proclaiming during all those difficult days of raging war in BiH, he confirmed by his attendance in Sarajevo, Cardinal Vinko Puljic told a Press Conference in the International Press Center in Sarajevo. The Pope's main message was PEACE and this was confirmed by the pilgrims and citizens of Sarajevo and all those who took part in the organization of his visit. We thank them and those who registered it all and transferred to the world. Cardinal Puljic confirmed that Alija Izetbegovic, after the mines were found in Sarajevo on the road the Pope should have passed, sent a hand written letter offering the Holy Father to accompany him everywhere and expose his own life to the same danger as could have happen to our guest.

It is worrying that it was discovered accidentally by a local worker and not during the previous control by the local police. IPTF does not have a suspect nor has anyone been accused of doing it.

Kalinic said that the RS position is that the local elections should be held in all municipalities, including Brcko, simultaneously and under equal conditions. Governing Board of the RS Chamber of Commerce meeting – the members of the Board discussed the relations between RS and FRY within the Special Parallel Agreement and problems with regard to economic relations between the RS and BH Federation in accordance with the DPA. RS Trade minister Cicovic said that the two parties [RS and FRY] are now discussing transport of goods without paying any customs. As for the economic relations with the BH Federation, the Board emphasised that there is trading going on between the two Entities in every way possible and with no control from the state. That should be stopped in order to provide normal and legal trade in accordance with the DPA. The DPA foresees separate customs administrations of the Entities, that is, the customs revenues go to the entities separately, which is another proof of RS independence.

World News:

Junge Welt reported that the Croats regard the Pope's visit as a visit to them only because they do not want to live in the Federation and are still fighting the crusade under two banners, of Croatia and Vatican. Vatican was the first to recognise Croatian independence and thus caused the war, but now the Pope is praying in Sarajevo that war never happens again. 'Semi-official' Turkish press agency Anadolu, quoting from the Italian press agency Ansa which apparently received the information from NATO, reported that the persons whose attempt to assassinate the Pope failed two days ago were Turks, members of a not-so-known Islamic extremist group 'Return of the Prophet Muhammad'.
