Mostar – Schwartz-Schilling's press conference – SDA and HDZ are the only ones responsible because no agreement was reached after 6 hours of talks on Bugojno. The people of Bugojno will still suffer under the OHR sanctions because of such behaviour of the party leaders. Schwartz-Schilling will not go to Bugojno anymore until SDA and HDZ sign a serious agreement which they will adhere to. He thought that the mayor of the city would be a Croat, and the IMA president a Bosniak, but Bicakcic, Rajic and Mlaco were not able to reach an agreement. Instead they were trying to find grounds inside the law for obstruction. He said that if the IMA is not established in Jajce by 15th of March, that does not mean that all other aspects of the agreement signed in Jajce yesterday must be brought into question. With regard to Bosnian refugees in Germany, Schwartz-Schilling said that there is no reason for them to live on Germans' welfare anymore, even more so due to the fact that the party leaders in the Federation are not willing to find a way to bring them back at least to the parts of the Federation where this is possible. The only way to overcome this problem is to organise a strong unified police force which will be able to oust the local powerlords who cause chaos on behalf of their own petty interests.

Sarajevo – SDP press conference – Zlatko Lagumdžija finds it strange that the QSP draft laws are being proposed by the OHR and not the CoM. The laws in the package have a number of flaws which are unacceptable for SDP, and its opinion is that there are two laws missing: law on CoM and law on private and state property throughout BH. The expert teams established for drafting these laws do not make expert but political decisions.

The constitutional-legal system of RS was disturbed again yesterday. Forceful entry of Muslims to the village of Gajevi near Lopare was the main reason for the meeting taking place between RS president Biljana Plavsic and the HR Carl Bildt. Despite the agreement that this part of IEHL is jointly patrolled by the IPTF and Serb police, Carl Bildt accused Serbs in advance for Muslims mistakes. "I think that we will bring responsible people to give exact documentation on those people that want to resettle in the ZOS and that have had houses there before. Our municipal institutions must participate and in the future I do not anticipate any conflicts. I think we are having good chances to solve this," said Plavsic after the meeting. We committed ourselves to stop incidents and to launch an investigation against perpetrators, announced Bildt. He added that from tomorrow on joint police units, consisting of the IPTF and Serb police, will patrol the area. At the end Bildt said that also people from RS should return to the "occupied" areas inside the Federation. Plavsic reacted to this words, pointing out that "this is a little bit different case, talking about the return to Drvar which is not a ZOS". Plavsic announced that special rules and regulations for the return will be adopted to carry out the procedure, which in her opinion is "pretty much O.K."
