This is the first verdict by the BiH Court which declares crimes in Kazani as war crimes. Bejtic was accused of killing civilians -Zoran Vucurevic, Ergin Nikolic and Dusko Jovanovic - and of assisting in killings of Bozidar Sljivic, Radislav Radosavljevic and Predrag Salipur. The SFRJ Code prescribes lesser penalties than the current BiH Code, thus lawyers often arque in favour of the Court apply the former.1 Beitic was in custody since 28 July 2002, and time he spent in detention would be deducted from his sentence. Within next fifteen days, Bejtic has rights to appeal. **PINK** – 14 other members of the same Brigade have already been sentenced for these murders in a process that started before Sarajevo Military Court 14 years ago. RTRS announced that it is going to investigate all possible mistakes and inform public about it. Member of BiH Presidency **Sulejman Tihic** has asked from CRA (Communication Regulatory Agency) to penalize RTRS and all electronic media that violated BiH Council of Minister's decision on 11<sup>th</sup> July as Mourning Day. **Abdurahman Malkic,** Srebrenica Mayor, in an open letter expressed hope that CRA would undertake measures against those, mainly RTRS, who failed to implement decision of state institutions. RS Association of former detention camp inmates has demanded from Serb members of BiH CoM to publicly say at which session Decision on Mourning Day in declared, finding them also responsible for possible CRA sanctions. **Nezavisne Novine** pg 8 'RTRS treats Srebrenica victims with respect' by RS PM Dodik: constant complaining against RS V.Popovic Inset 'Dodik: Constant complaining against Republika Srpska creates creates bad ambience a bad ambience' - Milorad Dodik, RS Premier, has observed "with regret that he was not aware of the BiH Council of Ministers' decision pronouncing  $11^{
m th}$  July as BiH Day of Mourning". Regarding demand of member of BiH Presidency SUleiman Tihic to CRA, DOdik said it is inappropriate for politicians to interfere in editorial policy of media, stressing: "Constant complaints against RS" institution create an ambience that gets back to those who create such an ambience." DA op-ed: Luckily, **Dnevni Avaz** pg 3 'Paravac's nebulosity' op-ed by Edina Sarac - Commenting number of people alike statement of Serb member of BIH Presidency Borislav Paravac [who said that Borislav Paravac in BiH he did not attend the funeral of 505 Bosniak victims of Srebrenica genocide held on Tuesday for in 2005, some highly ranked international officials greeted is in increase audience by saying Salaam Alaikum], editorial reads that people like Paravac do not belong to Europe at all. Author noted that it is good Paravac' term is running out, which would prevent BiH citizens from listening "his nebulosity". Sarac stresses that it is weird he was bothered by a greeting of universal meaning, whilst not by t-shirts with images of ICTY indictee Ratko Mladic. Author concludes: "Luckily, number of people like Paravac is decreasing in BiH. We can only forget him as soon as possible, when he gets off the political scene. And turn to Europe, and not time of hatred in which he still lives in." Glas Srpske op-ed pg 2 'Crying on one eye' by Boro Maric - the author GS op-ed: Serbian NGO 'Women in Black" criticises the fact Serbian NGO "Women in black" have again failed to attend again failed to pay the commemoration to Serb victims in Bratunac and says representatives of this NGO again cried "on one eye" this year - they cried for Srebrenica Bosniak respect to Serb victims victims while, at the same time, they failed to see Serb graves in Bratunac, Bijeljina, Trebinje, Teslic, Brod etc. He notes the NGO should have paid their respect to Serbs and Croats as well and should have asked for a suitable punishment for the perpetrators.

IMF: BiH's key goals to stimulate selfsustainable and to growth decrease deficit; BiH could face fiscal problems in 2007

**PINK** - Mission of International Monetary Fund [IMF] in BiH recommended to all the Governments, which are to be established in BiH after the October elections, that the decrease of deficit along with stimulation of self-sustainable growth should be the key goal for BiH. According to IMF, BiH is currently the last among Central and South-East European countries when it comes to structural reforms. IMF warned that without progress, the growth and process of new jobs creation are going to be stopped, while the monetary security is going to be in danger. IMF issued the list of its recommendations on Thursday. Hayat -Namely, IMF claims that budgetary coordination and discipline are weakening, while necessary structural reforms are halted, due to what state and entity governments could face fiscal problems in 2007.

NTV Hayat on privatization in FBiH: despite great expectations nothing has happened

Hayat by Snjezana Mulic - Commenting the privatization process in FBiH, reporter says that even though a lot was expected, nothing spectacular happened, adding that the process, which started eight years ago and which should have been completed by 2000, still lasts. Furthermore reporter says that in 2005, only 14 FBiH companies were privatized, adding that the state property was mostly sold for certificates and below the market price. Reporter adds that in past eight years, state property was sold for 8.93 billions KM, out if what 425 millions KM is cash. Out of 247 privatization agreements, 30 have been cancelled, 33 are to be cancelled, while 18 companies face bankruptcy. At the end, Mulic ridicules the whole issue saying that the FBiH Privatization Agency, a part of FBiH apparatus, prepared and financed by US administration, blames everyone except itself; namely reporter finds FBiH Government culpable, as well as investors for not being interested in purchase, employers, rigid legislature, public for being distrustful and media due to negativistic approach to privatization process.

## Debate on privatisation of telecom operators in BiH

FBiH Transport and Communications telecom operators in FBiH has to be sped up

Hayat by Nebojsa Radulovic - FBiH Ministry of Transport and Communications concluded that privatization process, in terms of telecom operators, has to be Ministry: Privatisation of speed up, adding it will come up with certain proposals by next FBIH Government's session on next Thursday. Through purchase of telecom operators, budgets would collect millions of KM, but this would happen only in case of simultaneous privatization. Due to announced 'RS Telecom' privatization, the FBiH Government started preparing its telecom operators for privatization as well, paying most attention to privatization aims and models. "FBiH Ministry of Transport and Communications was tasked to make the state capital privatization sector policy regarding FBiH telecom operators for next Government's session, which is to take place on July 20th", says FBiH Minister of Transport and Communications, **Nedzad Brankovic**. It is still unknown whether the Government is going to offer all stocks or just a part of them for purchase.

SB on privatization of telecoms: FBiH operators will be sold in stages

Slobodna Bosna pg 26-29 'Hadzipasic's and Dodik's deaf telephones' by Asim Metiljevic – SB writes about the FBiH response to RS Government plan to sell RS Telecom and claims to have an outline of the strategy of privatization of telecom companies FBiH Ministry of Transport and Communications will soon present to FBiH Government. According to SB, FBiH will sell BH Telekom and HT Mostar in one package; besides, FBiH (unlike RS) will only sell the companies while the infrastructure will remain in state ownership to avoid monopolized ownership of infrastructure by one telecom company and, hence, high price of its use by other operators. Another difference from what the RS plan envisages, claims SB, is that FBiH telecom operators will be sold in stages, i. e. over several years. Thus, only 20-25% share will be put up for sale in the first year so as make it possible for international investors to enter the BiH telecommunications market with relatively little money which is how it was (successfully) done in Croatia. However, SB concludes that international buyers will profit the most from RS and FBiH rushing to sell their telecom operators because 'when the supply is high, the prices go down'.

Dani: FBiH can overtake RS in selling telecoms by making direct contacts with possible int buyers

Pani pg 22-25 'BH Telecom and HT Mostar to lose hundreds of millions' mentioned on cover by Esad Hecimovic - Dani claims that, even before the RS Assembly session in which it was decided to go ahead with RS Telekom sale, the magazine was in possession of a study produced by BiH and international analysts warning that FBiH might lose a "first move advantage" if it ignored warning that RS Govt. was about to sell its telecom operator. Study also predicted that whoever gained a first move advantage would benefit from becoming a center of sophisticated ICT technology. Study recommended that FBiH can catch up with RS by taking a shortcut and making direct contacts with prospective buyers such as German and Austrian telecom companies.

Dani: Minister Brankovic delayed private interests

Dani pg 3 'Brankovic(s)' op-ed by <u>Senad Pecanin</u> - Editorial author blames FBiH Minister of Transport and Communications Nedzad Brankovic and other SDA privatization for his own people in power for FBiH and RS failing to agree on joint sale of telecom operators because 'Brankovic froze privatization of telecoms when it became clear he would not be able to fill his pockets by selling Eronet to Deutsche Telekom at a bargain price'. (Title reference: In some ex-Yu countries, name Brankovic is often associated with treason).

### Political issues

SDP pre-elections meeting in Sarajevo: If we have to choose and political obstructions, than we say goodbye to SNSD and SBiH

Dani pgs 36-38 'Goodbye Dodik, goodbye Silajdzic - We are heading Europe!' by Faruk Boric - Reporting from the SDP Convention held on Saturday in Sarajevo, article carries the rally was supported by social-democrats all over the between EU way for BiH world - starting form US Democrat Howard Dean to leading European socialdemocrats **Poul Nyrup Rasmussen** and **Miguel Angel Martinez**. SDP list leader for FBiH Parliament **Karlo Filipovic** stated that his party's programme is "democratic, decentralized, legal and social BiH as a state... in which municipalities, cities and a number of functional regions are operational. This means abolishment of entities and cantons." List leader for BiH Parliament from RS Dragi Stanimirovic stressed: "Enough of intimidation, false referendums, threatening with new war. It is time for such ideas to be retired. If we have to choose between EU way of our country and political obstructionists, and we have to, then we say: Goodbye Dodik, goodbye Silajdzic - We are heading Europe!" At the convention, the SDP leader Zlatko Lagumdzija underlined: "No one of the following [political parties] - SDA, SDS, HDZ, SBiH, SNSD, PDP would be either our coalition partner or opponent... just on the grounds of their names." Referring to latter statement, author notes this is perhaps the most important change in BiH political theatre in the past 15 years as SDP declared to have neither natural allies nor enemies anymore. Lagumdzija denied allegations that SDP would support SDA leader **Suleiman Tihic** who is running for Bosniak member of BiH Presidency, inviting citizens to vote only for SDP candidates and for no one else. Author concludes that SDP has a chance to win the elections only if it keep taking care of small local communities, stressing that late SDA leader Alija Izetbegovic knew that very well.

DL source: HDZ BiH MP in FBIH HoR joins HSP Djapic-Jurisic

**Dnevni List**, pg 6 'Pinjuh defected to HSP', by <u>Dn. L.</u> - according to DL's sources close to the HSP Djapic-Jurisic, an HDZ BiH MP in the FBiH House of Representatives, **Vesna Pinjuh**, has left the HDZ BiH to join the HSP Djapic-Jurisic. DL's sources in the party note there will be more defects in the following days, without revealing any names.

Serb officials slam request of HSP Diapiclurisic to US Congress to have RS abolished

**Dnevni List**, pg 8 'Serbs opposing to abolishment to RS', by Dario Pusic – carries comments on the initiative of the HSP Diapic-Iurisic, which has requested from the US Congress to adopt a resolution that would state that the RS Army committed the worst post-WW II genocide in Europe and which would call for abolishment of the RS. In a statement for DL, member of SDS Presidency, Momcilo Novakovic, stated: "In case such resolution gets adopted, there should be an addition to it, which would say that citizens of the entity (RS) have the right to self-determination". On the other hand, Deputy Speaker of BiH HoR, Nikola Spiric (SNSD), says it would be better for 'these areas' if HSP Djapic-Jurisic did not exist at all. SDP's MP in BiH Parliament Tomislav Limov says the SDP believes the current division of BiH could be overcome through regionalization of country, arguing that calls for abolishment of entities are currently unrealistic.

SB: HR has to meet distasteful duty regarding annulment of decisions on removals of BiH officials HR's predecessors reached over past years; Dani critical of OHR on this

Slobodna Bosna pgs 22-25 'Schilling between Petritsch and Ashdown' by Danka Savic - The author observes that a distasteful duty is ahead of the High Representative to BiH, Christian Schwarz Schilling, which he needs to fulfil by July 2007, when OHR is announced to close. According to Savic, this duty refers to annulment of decisions on removals of BiH officials, which previous HRs reached. The author notes all decisions on removals of officials lose sense through the abolishment of Bonn powers, owing to which reason OHR will have to decide in the coming months what to do with persons "removed" from positions over non-cooperation with the ICTY. Author claims decisions of HRs on removals were political decisions, without legal grounds and as such they are untenable following closure of this Office. Author assumes OHR wants to avoid further complication on the issue such as announcement amongst removed officials (for example **Dragan Kalinic**) who have announced they would file a suit against OHR before Strasbourg Court for Human Rights. Weekly further lists dates when decisions on removals were reached, including names of those removed, moving onto rehabilitation process starting as of November 2005. author observes **Paddy Ashdown**, former HR, "(ab)used" Bonn powers and reached approximately 14 decisions per month, most of all HRs. Dani 'Barometer' column - Referring to the annulment of removals decisions, Dani assessed the OHR's move as "terrible" [two black dots] noting that it is becoming contradictory: first uses powers to remove some, followed by powers to annul removals.

Feral comment: PACE resolution came too late, will only deepen antagonisms in BiH

Feral Tribune, pg 19 'Clear and late', by Ivan Lovrenovic - commenting on the recently adopted Resolution of the Parliamentary Assembly of Council of Europe (PACE), which among other issues requests adoption of new BiH constitution by 2010 and objects against the entity voting in the BiH Parliament, Lovrenovic argues that Resolution identified all the shortcomings of the Dayton-based organizational set-up of BiH, underlining that the Resolution came far too late because differences in BiH have strengthened too much in past 11 years. On top of this, <u>Lovrenovic</u> believes "this anti-Dayton document" (referring to the Resolution) will not mean much to BiH's reality, instead it could only deepen the antagonisms in the country. Finally, the author questions the weight of the Resolution since of 520 delegates in PACE, only 70 attended the voting of which 53 voted in favour of it.

FBiH Statistics Agency: A census in BiH could be organised in 2011

Oslobodjenje pg 2 'Census by year 2011' by FENA - FBiH Statistics Agency Director **Dervis Djurdevic** at the session of the FBiH House of Peoples session in Sarajevo on Thursday that population census in BiH could be organised in 2011. He added that the relevant institutions are carrying out preparations for the process. Diurdevic made this remark as he presented the HoP with the program for carrying out statistics research for FBiH in period of 2006-2009 and answering the guestion of the MPs as to why plan doesn't refer to census. "The census needs to be mentioned, but in the program for 2009-2013 period," Djurdevic said. FBiH HoP voted in favour of the presented document.

GS op-ed argues why RS is a better part of **l**BiH

Glas Srpske op-ed pg 2 'Why is RS better part of BiH?' by Tomo Maric - Author argues why the RS is a better part of BiH noting the following: RS people still believes in justice although ICTY indictee **Naser Oric** was sentenced to two years in prison; RS had strength, political maturity and human dignity to talk about crimes in Srebrenica (author refers to statement of RS President **Dragan** Cavic) while FBiH denies and ranks crimes as "smaller and bigger"; RS high delegation attended commemoration in Srebrenica while FBiH has never even expressed sympathy for the victims in Podrinje. Moreover, he notes RS alone arrests war crimes indictees while FBiH hides truth on suffering of Serbs in Sarajevo; RS shows stronger commitment toward fighting ultra nationalists and chauvinists: RS fights bribe and corruption, while FBiH does not even approve audit of property' origin; RS is aware of its problems and weaknesses while FBiH has only one problem that is RS.

BiH Parliament's Commission for Defence and Security Border Police

**Dnevni Avaz** pg 5 'Change of SBS name into Border Police adopted' by H.O. -Joint Commission of BiH Parliament for Defence and Security Chair **Bosko Siljegovic** told daily that according to the adopted amendments to the Law on changed SBS name into State Border Service [SBS], this state institution will change its name into Border Police: "It is important to know that members of Border Police have police authority now." He added that deadline for implementation of this law would be one year.

Serbia might be resumed without arrestment of Mladic

Reuters: SAA talks with PINK, EuroBlic pg 2 'Negotiations without Mladic in the Hague' by Reuters -The European Union could resume suspended talks on Stabilization and Association Agreement (SAA) with Serbia even without the arrest of war suspect Ratko Mladic if it finds Belgrade's Action plan for the cooperation with the ICTY convincing, EU diplomats said in Brussels. "If the plan is convincing, then there is a great readiness to restart the negotiations," said a British diplomat. EU Commissioner for Enlargement **Oli Rehn** said that EU is ready to resume negotiations on SAA on the same day when EU determines that Serbia cooperates with the ICTY in full capacity.
