FBiH HoR discusses	PINK <u>Zeljko Mandic</u> - At the session held on Tuesday, FBiH House of
draft of Law on Income Tax	Representatives discussed the draft Law on Income Tax. The proposed Law would replace existing Law on salary taxes and a series of similar cantonal laws.
	According to the proposed law, all citizens would be obliged to register their
	income and pay 10% or 20% taxes. FBiH Finance Minister Dragan Vrankic
	explained the citizens with monthly income of up to 300 KM would pay 10% or
	less tax, adding students and pensioners would be exempted from payment of Income Tax. The discussion on this proposal has finished. The MP's are
	supposed to vote on it in the session scheduled for Wednesday. BHT1 – BiH
	Independent Trade Unions President Edhem Biber, deems that this law would
	worsen situation for citizens since the income tax was so far 5%. FBIH
	Government disagrees noting that so far every citizen had guaranteed monthly deduction of 100 KM plus deduction on family of 170 Km. Vrankic said that in
	this way "an increase of the income tax will not radically change since most of
	the citizens will not pay more than 6%". FBIH HoR delegates asked for the
	introduction of the differentiated income tax rate for the citizens with higher
	incomes and redemption for the incomes lower than 300 KM. This law has been in the procedure for the last three years. It anticipates all the tax rates in all
	FBIH cantons and RS to be equalized. Hayat by Leila Gutlic – According to NTV
	Hayat reporter, it is not clear what has been concluded, because some
	representatives in the FBiH HoR claim that BiH citizens will pay less, while
	others deem that citizens will have to pay more. The Law on Income Tax is one
	the reform laws, which should replace previous FBiH law on income tax and twenty other cantonal laws and regulations, stated Vrankic, adding: " <i>We will</i>
	collect the same amount of revenues as in 2005, but 60 percent of tax payers
	will pay less taxes than before." FTV - Opposition was against the proposed
	law, claiming BIH citizens still haven't recovered from the Value Added Tax.

We are here to help for such things to happen." He noted issue of allocation from the single ITA account has to be solved carefully. Causevic stressed that he expects for about 100 million KM to be collected at the single account in period from July 1-10, where VAT applications are being submitted. It is still unknown when would the financing of entities and Brcko District start again, but FBiH Finance Ministry confirmed the statement of FBiH PM Ahmet Hadzipasic , who stated after Monday's session of BiH FC that none of FBiH citizens would feel the consequences of this blockade. As DA notices, bit ironically, FBiH Finance Ministry explained this with the claim that FBiH has reserves with which can survive for about 20 days without new incomes.
SB Kudic: RS is not to be blamed for blockade of single account	Oslobodjenje pgs 4-5 'Demand for fixed coefficients is result of fear from forgery' <u>by Marina Kacvaz-Sirucic</u> – Commenting the blockade of single account, member of ITA Steering Board from the RS, Miodrag Kudic , told daily that RS is not to be blamed for this, stressing that he is more concerned by the fact that BiH and FBiH Finance Ministers haven't attended, though the session of the Fiscal Council was priory announced. Kudic stressed that RS' insisting on fixed coefficients, instead based on VAT applications [as the Law foresees], and is based on the fact that many of VAT applications do not contain the data on final consumption, which is necessary for calculating of coefficients. Coordinator of Brcko District within Council of Ministers, Sinisa Kisic , stated that the only right way of allocation is as the Law foresaw it. He stated that demand for fixed coefficients is a result of a fear that data could be falsified before the statistic analysis.
weren't in the army are	Oslobodjenje cover splash, pg 3 'List of 'disabled' veterans includes even those who weren't in Army?!' <u>by A.B.</u> - Daily carries that the Commission for audit of the certificates issued on circumstances in which an army member suffered injuries or was killed has checked 1,111 cases which were deemed as problematic on basis of anonymous reports. Out of total, 130 cases were found " <i>very disputable</i> ". As daily carries, the Commission revealed that among " <i>disabled or murdered veterans</i> " there are those who never even were in the army and that their medical files were falsified during the war. Lists with names of " <i>suspicious</i> " were submitted to FBiH Ministry of Veterans, which is the only one that can take away the privileges enjoyed by the veterans and their families. However, daily stresses that no one has to be concerned, not even those who died or were wounded in criminal activities, since former FBiH Defence Ministry has set very vague definition of " <i>on line of duty</i> " in such manner that even a suicide is considered as military duty.

First possibility is that ICTY Chief Prosecutor Carla del strengthening right-**Ponte** did a lousy job, not being able to prove his guilt. Second option is that the Tribunal, as most of Serbs believe, is politically influenced and does not radicals want to disturb the black-and-white image of a criminal and a victim in BiH. Third choice is that Oric is de facto innocent. Ivanii comments that if later is the case "who is then supposed to be called for responsibility for the crimes committed against Serbs in Srebrenica region? Del Ponte has no alternative to Oric. If no one is however convicted for killing, torturing and expulsion of Serb civilians in the symbolically so important Srebrenica, how could then the pro-European forces in Serbia bring Serbs to admit their own guilt and turn to the European future? ICTY does not help them in any way." Author concludes that ICTY has great impact on politics in both Serbia and BiH, adding that it is irresponsible to use youth as an alibi for the alleged war crimes, thus strengthening right-radicals, the anti-European forces. GS brings statements Glas Srpski pg 2 'In jaws of double standards' by M. Dizdar, V.
