

OHR Welcomes Appointment of Council Of Ministers

Welcoming today's vote in the BiH Parliamentary Assembly the OHR calls on the incoming Council of Ministers to make up for lost time.

The Steering Board of the Peace Implementation Council previously called on the Council of Ministers to work without delay towards a global fiscal framework and state budget.

The new Council of Ministers needs to take urgent measures to promote economic growth and stimulate employment, and to move the country towards the EU and NATO.

The OHR today reminds the new Council of Ministers, as well as governments and legislatures at other levels within the country of their obligation to uphold and implement the Peace Agreement and underlines that it will work with elected officials to ensure its full implementation.
