## Economic, social and property issues

<p>FBiH HoR accepts demands of civil victims of war accepted by FBiH HoR, which passes the amendments to the Law, foreseeing increase of disability payments</p>	<p><b>Hayat</b> by <u>Nebojsa Radulovic</u> – The FBiH House of Representatives accepted on Tuesday the request of the FBiH Union of Civilian Victims of War for bringing monthly payments to civilian victims of war to the level of 70 % of what is being paid to war veterans for the same level of disability per month. By adopting the proposed changes to the social protection for civil war victims and families with children, the HoR has instructed <i>“the FBiH to pay 50 percent of that money, while the remaining 20 percent will be paid by Cantons”</i>, as explained SDA Caucus Chair <b>Semsudin Mehmedovic</b>. Approximately 200 members of the FBiH Union of Civil Victims of War protested on Tuesday in Sarajevo in front of the FBiH Parliament’s building at the time of the HoR session. During the protests, <b>Senida Karovic</b>, Chair of the Union, repeated civil war victims <i>“are product of war just alike the disabled veterans”</i>, however she noted satisfaction with the agreement. FBiH Minister of Labour and Social Policy <b>Radovan Vignjevic</b> was booed when he arrived to address the demonstrators. However he noted that the Government would encounter great problems in trying to implement this decision of the FBiH HoR, as the monthly benefits per user would now be about 514 KM, which is a great burden for the Government. <b>BHT1</b>- The FBiH Government fears that such solution is not possible. <i>“I think that the FBiH and Cantons’ budgets would hardly be able to handle this...I am afraid these are unreal solutions”</i>, said Minister Vignjevic. <b>Dnevni List</b>, pg 3 ‘Civilian victims are victims of charitable MPs’, by <u>Mensud Zorlak</u> – DL comments that the MPs adopted the amendments led by emotions, not common sense, since there is not enough money for the civilian victims of war. <b>RHB, PINK, FTV, Oslobodjenje</b> pgs 4-5 ‘514KM per month to civil victims of the war’, mentioned on cover by <u>S.Se</u>, <b>Dnevni Avaz</b> pg 3 ‘Deputies supported civil victims of the war’ by <u>A.Hadziarapovic</u>, <b>Nezavisne Novine</b> cover pg splash ‘Invalids “entered” the law’ and pg 3 ‘Demands of invalids were adopted’ by <u>R. <p>ITA single account unblocked, revenues allocated to entities, Brcko by coefficients for first three months in 2006</p>	<p><b>RTRS</b> by <u>Biljana Knezevic</u> – Indirect Taxation Administration [ITA] single account was unblocked on Tuesday. Resources for month of June would be allocated in accordance with temporary allocation coefficients for the first three months of 2006. If permanent coefficients are not determined by June 20, single account might be blocked again in July. On Tuesday, the amount of 32.5 million KM from single ITA account was allocated to entities and Brcko District [RS 29.76%, FBiH 66.77% and Brcko District 3.46%]. RS believes that new fixed allocation coefficient should be established on grounds of new and reliable allocation model. <i>“It is impossible that the final expenditure from the last year, which was around 32% falls to the final expenditure of 29,5%. This is a model, which is not good. The software is not a problem but data coming from the field”</i>, said RS Finance Minister <b>Aleksandar Dzombic</b>. ITA Steering Board presented information from the field and concluded that 50% of VAT claim forms were not handed or filled in properly. RTRS comments this proves RS stance that allocation has not been done in accordance with the correct information, thus data is not reliable grounds to determine fixed coefficients. <b>Miodrag Kudic</b>, Member of ITA Steering Board said he is not optimistic about this issue being solved by the end of the month. <b>Joly Dixon</b>, ITA Steering Board Chair, said that he is very optimistic due to successful introduction of VAT, increase of credit rating, collection of more resources than expected etc. <i>“There is no perfect system. But we can certainly establish the system that everyone will trust in. This way every side will get just amount and no one will be damaged”</i>, said Dixon. FBiH and RS agree that present law on allocation of the resources should be changed. ITA established new working group, which should discuss and propose new fixed allocation coefficient. <b>PINK, BHT1, Nezavisne Novine</b> pg 4 ‘It is necessary to find a permanent solution’ by <u>R. Segrt</u> [Dzombic, Kudic], <b>Glas Srpske</b> cover pg report ‘BAM 32 million unblocked’ by <u>Srna</u>, <b>Nezavisne Novine</b> pg 4 ‘It is necessary to find a permanent solution’ by <u>R. Former Central Bank Governor Nicholl: RS should transfer banking supervision to state level	<b>PINK-</b> Former Governor of BiH Central Bank <b>Peter Nicholl</b> believes that the RS Government should bring decision on transfer of banking supervision to the state level if it wants to make improvement in this area. Commenting the statement of <b>Aleksandar Dzombic</b> , RS Finance Minister, that transfer of banking supervision to the BiH Central Bank would be a mistake since the BiH Central Bank has no resources and infrastructure for the banking supervision [Dzombic agreed to supervision of independent institution with a seat in Banja Luka which would be made through a merge of two existing; for more details please see Media Round-up from June 6], Nichol said that this statement is of political nature. Serbia seeks intensified cooperation with international actors so that our efforts can be independently verified... Those in Serbia who are complicit in the protection of General <b>Ratko Mladic</b>, who is charged with war crimes in Bosnia, are the least patriotic of Serbs. They are part of that political culture that hijacked Serbia and its history some 15 years ago, using patriotism to camouflage their nefarious actions."</i> Commenting Kosovo issue, Tadic underlined: <i>"A negotiated outcome on the future status of Kosovo is the only possible and feasible solution, and we all – Serbs, Albanians and the entire region – share the same interest in achieving such an outcome."</i>

<p>BiH Court President Kreso: It is not disputable that we need foreign judges; HR should use Bonn powers and impose Law on Criminal Procedure</p>	<p><b>Dnevni Avaz</b> pg 5, mentioned on cover 'It is not disputable that we need foreign judges' by <u>Husein Orahovac</u> – In an interview for daily BiH Court President <b>Meddzida Kreso</b> said that detention period [one year] for cases with confirmed indictments should be prolonged, for if the process is not over in the period of one year, than the indictee must be released from detention, even if charged for war crimes: <i>"Imagine that such person escapes to Croatia or Serbia if one has one of citizenships of these states. It is over, end of story on verdict, for issue of extradition is not solved."</i> Kreso said she believes BiH Parliament will adopt amendment on Law on Criminal Procedure she herself submitted: <i>"But the procedure is slow and it would not be bad if High Representative 'activates' his Bonn powers and impose the mentioned change."</i> She explained that she addressed authority at the state level complaining about pressures on work of BiH Court, after <i>"those who are authorised to protect independence judicial authority [High Judicial Prosecutorial Council] showed no interest to do so."</i> Kreso stated that her dispute with UK Ambassador <b>Matthew Rycroft</b> was solved, adding that BiH needs foreign judges, but the quality ones with reputation. She underlined most of foreign judges working for BiH Court are experts. Kreso also noted that BiH citizens are not all the same before the law having in mind that the BiH Court can pass verdicts for more than 40 years of imprisonment, while the entities' country for the same crime can sentence someone to 20 years of prison maximum.</p>

O.</u> – Upon considering a letter of BiH Court Chair <b>Meddzida Kreso</b>, who was recently under pressures of international and BiH officials, FBiH Association of Judges on Tuesday stated they believe HJPC should take Kreso's remarks seriously <i>[the remarks were made because of jeopardizing of dignity and independence of judicial authorities through the way in which a part of the international community communicated with her]</i> and added it is the obligation of judges to preserve and improve independence of judicial authorities and they warned that the current reform of judiciary, apart from progress, principles of partnership relation are often being violated. Chair of HJPC <b>Branko Peric</b> did not want to comment on the letter of the Association. HJPC stated they have not received the letter, therefore they cannot comment on it. <b>Dnevni Avaz</b> pg 5 'Remarks are serious and HJPC should take these into consideration' by <u>Onasa</u> – also reported.</p>
<p>GS op-ed: Citizens need jobs, defence reform model should be applied in police reform as well, stance of BiH Court Chair on appointment of judges justified</p>	<p><b>Glas Srpske</b> op-ed pg 2 'Truth is bitter' by <u>Miroslav Mikes</u> – The author comments on several issues: criticising statements of officials from all three peoples (Cardinals for saying Croats who support constitutional changes are acting as Judas, Serbs for wanting to have special relations with Serbia and <b>Sulejman Tihic</b> for saying that the arrival of Turkish ship to BiH territorial water is a significant message) and adds the greatest achievement in BiH is construction of jails, courtrooms, raising of war crimes indictments...The author welcomes these achievements but notes citizens need to have jobs, education, tolerance etc. He compared defence reform and police reform and wondered why cannot the defence reform model be used in reforming of the police in such way to have a single Mol Law, financing from BiH budget and BiH Mol with two components – RS Mol and F BiH Mol. He added: <i>'Police reform is indeed necessary, but a reform should not be in a political function of weakening of one of the entities'</i>. The author also referred to the appointment of judges to BiH Court and assessed statements of foreign diplomats (that their Governments made donations to the Court) as inappropriate because such statements imply they should have an influence on appointment of judges, leading to indirect influence on independence of the Court, which they would have never allowed to happen in their countries. Therefore, the author welcomed the stances of BiH Court Chair <b>Meddzida Kreso</b> and BiH Presidency. He concluded by sending a message to foreign diplomats: <i>'Your principles must be applied here as well. In that way, we will become a democratic state, which is good both for you and for us'</i>.</p>

Bjelica argues that such initiative can only have negative consequences, however the author reckons that as long as the Sarajevo-based politicians and media keep calling the RS a product of genocide, such initiatives should not surprise anyone.

Did he receive signal from certain centres of power, to throw bait and check how would public react? Or he is only shooting pre-election blanks? Whatever it is, it is scandalous that a Foreign Minister supports idea of secessionism. Nobody is marvelled anymore by [RS Prime Minister <b>Milorad</b>] <b>Dodik</b>, who is only an entity PM, from whom such thing is not unusual to hear.
