“Resolution of the state property, as a prerequisite for the OHR’s transition, is a priority. BiH leaders have to do their part of the work to finalize this issue. Once the inventory is produced, BiH politicians will have necessary data in order to discuss the state property distribution. This is a step they have to make”, said the High Representative/EUSR Inzko.

At the end of the discussion, the High Representative/EUSR emphasized the need for a functional political dialog in the country.
