HR/EUSR Welcomes SDA's Commitment to a European Future

"I welcome the decision by the SDA Presidency to agree to the Draft Protocol on fulfilling the police reform requirements necessary for initialing and signing the Stabilization and Association Agreementas a basis for police reform in BiH. The Protocol constitutes a proposal that is in line with the three European principles. Its adoption paves the way towards the Stabilization and Association Agreement.

This shows that SDA is committed to shaping a European future for Bosnia and Herzegovina and ready to find solutions in the interest of all citizens of this country.

Only three days remain for parliamentary parties, which still have not yet done so, to advance towards the European road", the High Representative and EU Special Representative Miroslav Lajčák said.
