

High Representative Receives Progress Report from RS Srebrenica Commission

The RS Government has delivered a Progress Report from the Srebrenica Commission to the High Representative, within the deadline set by the High Representative on 16 April.

The High Representative required the Commission to include in this Progress Report information that was absent from its Interim Report, presented to the High Representative on 15 April. The Progress Report will also indicate the level of compliance by the RS Authorities with the High Representative's requirement that they cooperate fully with the Commission.

"I have received the Progress Report from the Srebrenica Commission, due on 30 April," the High Representative said today. "An initial reading suggests that the Commission believe they have received improved cooperation from the RS authorities, and important new information. However, I will make a formal assessment of the Progress Report in the course of next week, after it has been thoroughly reviewed."
