<p>RS Vice-president Tomljenovic says Srebrenica commemoration messages to influence future happenings in BiH</p>	<p>BHT <u>Zoran Sarenac</u> – 10th anniversary of Srebrenica genocide has been marked in many world countries, but not in RS. RS Vice President Ivan Tomljenovic commented this fact, stating that the messages of local and international officials sent out from the commemoration ceremony in Srebrenica on July 11th would influence the future happenings in BiH. According to Tomljenovic, this means changes of BiH Constitution and question of survival of RS. These messages will also influence the creation of ambience of relationship between BiH and the international community. Tomljenovic is satisfied by the organization of commemoration ceremony and work of RS police, but he stressed that many families arrived to late to the ceremony. He believes that more effective controls of police could have enabled more people to attend the ceremony. Slobodan Popovic, representative at RS National Assembly stated that the authorities in Srebrenica should make radical moves in order to help the families of victims to cope with the past. Some analysts believe that RS officials are not making public statements on Srebrenica because they don't want to upset the voters before the elections. The same reason probably caused the official ignoring of decision of BiH Council of Ministers on mourning day for Srebrenica, which wasn't respected in RS.</p>

Jahic explained that the resolution could have been adopted without the word "genocide" in its text, but there can't be no bargaining on truth. BiH Parliament Assembly member Nikola Spiric stated that there is no need for a compromise on truth, but there must be a consensus on a political act such as the resolution on Srebrenica. Families of victims say that they have never asked for the resolution, and it wouldn't mean anything for them. Munira Subasic from Association of Mothers of Srebrenica and Zepa Enclaves stated that the fact that the resolution hasn't been adopted yet is not a surprise, but it is a shame. Tilman Zulch from "Society for Threatened Peoples" stated that the problem lies with the fact that BiH is still divided, and many war crime suspects still haven't been arrested. The reporter commented that Croatian Parliament could adopt the resolution on Srebrenica before the BiH Parliament Assembly.</p>

Seminar on SAA held on Jahorina	BHT, Oslobodjenje pg 3 'BiH is a serious EC's partner' - BiH Directorate for European Integrations and Technical Support Team organized seminar on negotiations on Stabilization and Association Agreement (SAA) on the mountain of Jahorina near Sarajevo on Wednesday. Seminar Presented methods, organization and coordination of the negotiations. Head of BiH Directorate for EU Integration Osman Topcagic stated that BiH could sign the Stabilization and Association Agreement with the EU by the end of 2006. However, BiH must meet the two remaining requirements, which are the police reform and reform of PBS system. After signing the Agreement, BiH will have to answer to over 3000 questions of EU on functioning of all segments of BiH authorities. According to experience of Lithuania, whose association process took 14 years, this process is very difficult. As Petras Austrevicius from Lithuanian Commission for EU Issues explained, Lithuanian didn't have problems with reform of administration and human rights. However, Lithuanian major problems were related to economic issues and market economy. Only two West Balkans countries which have signed the SAA are Macedonia and Croatia . BiH and SCG are still waiting for this. Depending on speed of meeting of requirements, BiH will be able to use the funds for support of countries in association process. BiH authorities should now decide on 11 development projects which will be financed by the EU.

Now we have to find finds to de-block the road... in order to start negotiations on Stabilization and Association Agreement in mind November,"</i> adds Prime Minister also urging parties to take a stance of RS Prime Minister, Pero Bukejlovic, on continuing discussion on the issue in institutions. Terzic concludes by underlying that if reforms are not continue, damage for BiH would be enormous.</p>

SDA leader, Sulejman Tihic, [who was not aware of the meeting being held] states for DA that <i>"this is the issue that Terzic should deal with, and as for SDA he has our full support."</i> SBiH leader, Safet Halilovic, says today is a chance to finally reach an agreement on composition of the CoM and its possible restructuring. PDP Executive Director, Gavrilo Antonic, says the party sees solutions either if Terzic appoints new ministers, but he has no parliamentary majority for that; secondly for Terzic to annul his decision and thirdly for CoM Chair to tender resignation. SNSD official, Nebojsa Radovanovic, commented that the current ruling parties cannot improve the situation and would only reach an agreement in their personal interests.</p> <p>Nezavisne Novine pg 4 'Terzic ready to see Ivanic stay' by <u>M.Cubro</u> – The leaders of five political parties and BiH Presidency members should today resume talks on BiH COM's crisis, confirmed Safet Halilovic. <p>DA interview with Cavic: 'In RS, for ones removed by Ashdown it is like receiving thee highest medal'</p>	<p>Dnenvi Avaz pg 5 'If BiH misses its opportunity by November, a question is when the new one will appear?', mentioned on cover 'In RS, for ones removed by Ashdown it is like receiving thee highest medal' by <u>Edina Sarac</u> – In an interview to DA, the RS President, Dragan Cavic says BiH has big chances to commence the negotiations in Stabilization and Association Agreement this year, stressing if this chance is missed it is a question when the new one would appear again. Adding that it is realistic to expect this in October/November, Cavic reminded it all depends on police reform adding that everybody must do a maximum to ensure consensus reached on the issue. He underlines that current RS ruling parties have done plenty for the entity and country in past two and half years, adding it would be a shame not include police reform in it. On the issue of war crimes, asked whether there was genocide committed in Srebrenica, Cavic said: <i>"I am not going to play with that word and it is not up to me to give such qualifications. Those authorized should do that. Genocide as legal qualification must be proved in the court."</i> Cavic notes that verdicts by ICTY such as those in case of Radoslav Krstic [which explicitly say genocide] refer to individual cases. Asked whether activities to improve RS cooperation with ICTY is a result of the measures by the High Representative, Cavic responds: <i>"What do HR's measure mean? Lets be entirely open and sincere. Here in RS, for a person removed by HR it is like receiving a medal for courage. Don't you think I would like to receive a medal from citizens?"</i> He concludes that the easiest way for a politician to solve his problems is to create situation in which HR will remove him/her.</p>

HR acts to save KM 30 million monthly losses	<p>Oslobodjenje pg 10 'Tax stamps will be issued', Dnevni Avaz pg 2 'Entities and Brcko can continue with issuance of tax stamps', FENA – The High Representative on Wednesday issued a Decision to provide full legal clarity with regard to the transition of full responsibilities for indirect taxation to the Indirect Taxation Authority (ITA). The High Representative acted in response to a request from the ITA Governing Board. The Decision will permit Entity and Brcko authorities to continue to issue tax stamps that appear on tobacco and alcohol products for a short interim period until the ITA is ready to issue these stamps itself, OHR said. The High Representative's decision is designed to ensure that there is no loss of revenue. Failure to enact the decision would result in a loss of up to 30 million KM per month, which could in turn result in, for example, arrears in vital Entity level services such as education. A great deal of work has been accomplished in a short period of time in the indirect taxation reform process. The ITA has been created, a single state level account activated, and all indirect tax legislation is at the state level. But in order for this to continue, the High Representative said that the ITA and its Governing Board must remain fully focused on the key date of 1 January 2006, when VAT will be introduced. By this time, all indirect taxation administrative competencies and full responsibilities must be assumed by the ITA. However, in order to ensure stability of revenue flows into the single account and taxpayer convenience, the transition of responsibilities must happen at the earliest opportunity – that means as soon as the ITA is ready to assume them, OHR said.</p>
