

Request for Proposals (RFP): Agricultural Marketing Project – Berry Fruits and Orchard fruits

Deadline for Submission: Thursday 8 August 2002

The Office of the High Representative (OHR) invites Applicants (suitably qualified and competent companies and agencies, domestic, international, or NGO's) to submit proposals for conducting an Agricultural Marketing Project.

The Project has two components:

- 1. Organisation and Management of a series of 6 agricultural marketing training sessions.**
- 2. A pilot income generation project to organise and complete the marketing and sale of a one-off shipment of agricultural produce to domestic or external markets.**

Background:

The Brcko District is located at the heart of the fertile Posavina plain, and enjoys climatic and soil conditions well suited to the cultivation of berry fruits (strawberries, cherries and raspberries) and orchard fruits (apples, plums). Fruits like these are generally grown for commercial profit, as opposed to other crops like grains, which are largely grown for domestic use. The fruit sector is growing sector (from 8-15% in the last three years) and represents a valuable business opportunity for the Brcko farmer. The Brcko farmer is well placed to capitalise on the increasing demand for organic produce in the surrounding regions and European Union countries. Several factors, however, hinder the agricultural

community in Brcko District from harnessing this niche market, amongst which are the small size of farms, lack of access to credits, lack of capacity within the agricultural associations / co-operatives to organize and market bulk fruit production, lack of market research facilities and poor knowledge of current market conditions and cultivation technology. This project aims to address some of these problems.

Proposal Requirements:

To be considered, your proposal must include and satisfy all of the following basic requirements:

- A. Concept Paper**
- B. Registration Papers**
- C. Explanation of Experience**

It is worth noting that the final contract to be signed with the successful Applicant will take those programs into account, and all possible avenues of cooperation with agencies active in the field of agricultural assistance, i.e., UNDP-BLAP, Mercy corps, Counterpart International, Mercy International USA, etc., will be fully explored.
