

Brcko Bridge

Contrary to reports in the world press, the situation at the Brcko Bridge is normal. Private and commercial traffic is crossing regularly. RS customs officials and police stationed at the bridge are complying with Supervisory Orders on the collection of fees at the bridge.

According to the November 13 amendment to the Supervisory Order of October 9, RS customs officials are now collecting customs duties in accordance with the new "Customs Tariff Policy Law of Bosnia and Herzegovina."

IPTF maintains a permanent presence on the Bridge and SFOR frequently patrols the bridge crossing point.
