<p><b>Lack of cooperation with ICTY still main obstacle to Bosnia's PfP membership</b></p>	<p><b>FTV, RTRS, Oslobođenje</b> pg 5 'Obstacles include The Hague and constitutional arrangement', <b>Dnevni Avaz</b> pg 4 'Change to BiH Constitution a condition for accession to PfP', <b>Nezavisne Novine</b>, cover 'BiH Constitution is an obstacle for the admission to NATO' and pg. 2 'BiH Constitution is an obstacle for the admission to the Partnership for Peace' by A. Sisic, <b>ONASA</b> - Members of the Sub-board for future security and defence capacities of the NATO Parliamentary Assembly concluded on Tuesday in Sarajevo that BiH has made considerable progress in the sector of defence and security and that the biggest obstacle to admission of BiH in NATO's Partnership for Peace (PfP) is lack of cooperation with the Hague Tribunal (ICTY). Head of a delegation of the Sub-board <b>Vahit Erdem</b> told reporters after a meeting with members of the Joint Commission of the BiH parliament for security and defence policy that security in BiH and the Balkans is a very important issue for the European community. He assessed that BiH has fulfilled the majority of conditions for joining the Euroatlantic integration, but that the process is slow due to lack of cooperation with the Hague Tribunal. <i>"We hope that BiH will overcome the problems and become a member of NATO and the EU,"</i> he said.</p> <p><b>Herceg Bosna Radio, FENA, SRNA</b> - Representatives of the NATO Parliamentary Assembly on Tuesday also indicated that the constitutional-legal complexity of BiH is one of the problems on its road to the Partnership for Peace, according to Chair of the BiH Parliamentary Commission for Defence and Security Policy and Monitoring the Work of Defence and Security Institutions at state-level, Bosko Siljegovic.</p> <p><b>Dnevni List</b>, front pg 'Raguz: Change of Constitution crucial for BiH' and pg 3 'Change of Constitution crucial for joining PfP', by <u>Danka Polovina-Mandic, Ivica Glibusic</u> - BiH parliamentarians got a clear message from members of Sub-committee for future security and defence capacities of NATO's Parliamentary Assembly yesterday that BiH would not join the Partnership for Peace programme unless there is a full cooperation with the ICTY and unless BiH changes its complicated constitutional-legal set-up. According to the Speaker of the BiH Parliament's House of Representatives, <b>Martin Raguz</b>, members of the Sub-committee pointed out to limitations of the Dayton Peace Accord and BiH Constitution on BiH's road towards Euro-Atlantic integration. <i>"It was clearly stated that we are expected to do the job, in other words to carry out the changes on our own, otherwise it will be set as a criteria for future memberships in those associations. This is the first time that this has been said this strongly. All the limitations of the current constitutional structure, according to their opinion, will be obstacles to our future membership in both the EU and NATO"</i>, says Raguz.</p>
<p><b>BiH Presidency members meet NATO parliamentary delegation</b></p>	<p><b>Herceg Bosna Radio, Vecernji List</b>, pg 3 'NATO satisfied with progress in BiH', mentioned on front, by f., <b>FENA</b> - BiH Presidency members <b>Dragan Covic</b> and <b>Borislav Paravac</b> on Tuesday received a delegation of the NATO Parliamentary Assembly, headed by <b>Vahit Erdem</b>, the Chair of the Subcommittee for Future Security, BiH Presidency's Public Relations Service said in a press release. Talks focused on replacing SFOR with the EU-led forces, and transition processes on BiH's road to European and Euro-Atlantic integration. It was ascertained that it is necessary to conduct a transition in the economic sector, as well as to transform the state so that it could be more efficient in both political and economic sense. The NATO parliamentary delegation commended the progress realized in BiH, and supported BiH's efforts for joining the Partnership for Peace. Full cooperation with ICTY and apprehending the indicted war criminals are the key conditions for BiH's admission into PfP, said the representatives of the NATO Parliamentary Assembly. All the relevant factors in BiH have full consensus on implementing the necessary activities with the aim of insuring BiH's admission into PfP and EU, said BiH Presidency members.</p>

<b>SIPA Director Novic visits Brcko District</b>	<b>Herceg Bosna Radio, Oslobođenje</b> pg 3 'Office opening has nothing to do with terrorism', <b>Dnevni Avaz</b> pg 10, mentioned on cover 'SIPA to be a real Bosnian FBI in a few years', <b>Nezavisne Novine</b> , pg. 5 'BiH is unexplored area with regard to terrorists' by V. M., <b>Glas Srpske</b> , pg. 3 'Following trace of suspicions' by M. Dj. <b>FENA</b> – Director of the State Information and Protection Agency (SIPA), <b>Sredoje Novic</b> , visited Brcko District on Tuesday, to tour some potential locations for regional office of SIPA with representatives of the District Administration. Novic rejected allegations that opening of the SIPA office in Brcko is connected with speculations of some foreign media on presence of Islamic terrorists in the area. He said that BiH was still an uninvestigated region, adding that after its establishment in full capacity, SIPA will be able in the first months of the next year to offer adequate information as to whether BiH and to which extent is connected with terrorist organizations throughout the world. Novic expressed his satisfaction with the so-far activities regarding the establishment of SIPA.
<b>DL on rule of law in BiH</b>	<b>Dnevni List</b> , pg 2 'BiH as state of rule of law', by <u>Jurislav Petrovic</u> – reminding of the High Representative, <b>Paddy Ashdown's</b> , statement during his recent visit to SIPA, when the HR announced a battle against corruption and crime in BiH, the author says the statement is very encouraging, nevertheless, the author is not sure whether BiH would soon become a state that upholds the rule of law. He goes on to say that the answer to that question will be known in few years time and until then, everything is down on peoples in BiH and BiH politicians in particular.
<b>Kocsis says intelligence agency to begin work early next year</b>	<b>BHT, FTV, Glas Srpske</b> , pg. 3 'The Parliament takes measures' by <u>Srna</u> , <b>SRNA</b> – The BiH security and intelligence agency (OSA) should start its work at the beginning of next year, the supervisor of reforms in the BiH intelligence sector, <b>Kalman Kocsis</b> , said on Tuesday. Noting that it is necessary to have parliamentary control over the intelligence community, Kocsis said that BiH has not had a long tradition in this field, adding that the newly-appointed members of the joint intelligence and security commission of the BiH Parliamentary Assembly for control over the OSA must gain knowledge on the examples of control in other parts of the world. At the seminar on parliamentary control of the intelligence services he said that the Law on the Intelligence Agency offers a sophisticated system of monitoring and control, which is probably one of the most stringent in Europe. The Senior Deputy High Representative, <b>Verner Vnendt</b> , said that intelligence information must be shared with other countries if BiH wants to successfully combat terrorism, crime and smuggling of people. Considering that sometimes state interests come above the interests of the citizens, Vnendt said that the standards for gathering of confidential information must be clearly established in order to guarantee civilian freedoms.

' <i>...We practically have two services of the entities that have only been formally renamed to a state service, while these are working completely independently from each other</i> ', an anonymous collocutor from OSA claims.

<b>Commander of 2<sup>nd</sup> Police Station in Banja Luka was suspended again</b>	<b>Nezavinse Novine</b> , pg. 4 'Sasa Misic was suspended again' by <b>S. K.</b> – <b>Sasa Misic</b> , the Commander of 2 <sup>nd</sup> Police Station in Banja Luka, was suspended again yesterday, only couple of hours after he was reinstated to his position. This is the second time Misic is suspended in the past three months. The official reason for his second suspension is a severe violation of duty and overstepping of his authorisation. An anonymous source, on the other hand, claims this is just a continuation of applying a pressure on Misic in order for him to decide to leave RS Ministry of Interior.
<b>GS on indictments against mujahedeens in BiH</b>	<b>Glas Srpske</b> , cover page story 'Devil and his protector' by <b>D. M.</b> and <b>G. K.</b> – the article refers to the indictment for war crimes against <b>Abdulahim Maktouf</b> , a BiH citizen of Iraqi origins, which was brought only recently, nine years after the war ended. The President of RS Veterans' Association, <b>Savo Cvjetinovic</b> , wonders why one has not started determining responsibility of mujahedeens for war crimes earlier but only now. The overall conclusion of the article is that one can easily get an impression that investigations on war crimes of mujahedeens in BiH have commenced only after they have left BiH and escaped from justice.
<b>VL, SD: US investigators checking into possible funding of Al Qaeda in BiH</b>	<b>Vecernji List</b> , front pg 'Al Qaeda's money in BiH' and pg 3 'Investigations in bank over Al Qaeda', by <b>Dejan Jazvic</b> – notes that several companies and institutions in BiH are under investigation conducted by US investigative bodies because of suspicion that they are connected to the Al Qaeda terrorist network. Following a recent checking into documents of 'Risala' school in Sarajevo, which was established by a controversial businessman from Saudi Arabia, <b>Yassin Al Kadi</b> , US investigators are conducting investigations on other companies that can be linked to Al Kadi, who is suspected by US authorities of financing Al Qaeda. Unofficially, the investigation is focused on the Sarajevo-based 'Vakufska bank' because of suspicious activities. VL also notes that BiH authorities are also interested in operations of companies and institutions that are linked to Al Kadi. Apparently, BiH authorities have placed Euroinvest, Bare komerc, K product and AE komerc companies under watchful eye because of suspicion that they are involved into smuggling of cars, sugar and other goods. Speaking of the second indictment against Jelavic, Muselimovic says that the defense will lodge appeal timely as he is of the view that it was issued only to corroborate the first one. <i>"It is about politically discrediting Jelavic in front of BiH public and presenting him as the one who toppled the Dayton-created BiH"</i> , he adds.

The objective of this meeting is to discuss achieved progress and how to ensure that BiH achieves its full potential, especially in the field of economy, World Bank in BiH Director <b>Dirk Reinermann</b> said at a press conference in Sarajevo on Tuesday. He added that funds would not be raised at this conference, but that important issues, such as the macroeconomic situation, fiscal and issues concerning the development of the private and financial sector would be discussed. Reduction of poverty, development of institutions, activities on the road towards the EU, reforms, investments and coordination between donors will also be discussed. <i>"This is the first conference at a senior level since a similar conference held five years ago when 39 delegation and 190 participants from across the world gathered"</i> , Reinermann said and added that the meeting is also an opportunity to discuss action plans for implementing the PRSP and the Feasibility Study. <i>"We have asked all delegations that will be present at this meeting about their plans for providing support to BiH in the next three years and that level of support totals 1,2 billion USD. This also includes World Bank support at maximally 180 million USD and a similar amount from the European Commission"</i> , Reinermann said. He said that several countries have not been included in these figures and that the final amount could be even higher. Head of the European Commission's Economic and Political Department in BiH <b>Renzo Daviddi</b> said that funds intended for the development of BiH are already here or are expected to be made available.
<b>UNHCR: More than million refugees, displaced persons return to pre-war homes in BiH</b>	<b>Herceg Bosna Radio, BHT, FTV, Oslobođenje</b> pg 9 'A million people returned (to their pre-war homes) in BiH', <b>Dnevni Avaz</b> pg 8, <b>Dnevni List</b> , pg 6, 'Million returnees in their pre-war homes', by Erna Mackic, <b>Vecernji List</b> , pg 2, 'Only every fourth DP returned to RS', by Eldina Medunjanin, and <b>Slobodna Dalmacija</b> , pg 16, 'Million refugees returned to BiH', by B. Magas, <b>HINA</b> - Nine years after the end of the war in BiH, a million refugees and displaced persons have managed to return to their pre-war homes, UNHCR mission chief <b>Udo Janz</b> said at a press conference in Sarajevo on Tuesday. The millionth returnee to BiH was registered in July, and UNHCR monthly statistics show that the number of returns by the end of August totalled 1,000,473. This is possibly the most important step that has been achieved so far in our efforts to normalize the situation in the country after the tragic war, Janz said. During the 1992-1995 war, 2.2 million people fled or were forced to leave their homes. Among the million returnees, 440,000 left the country during the war, while 560,000 were internally displaced. The pace of returns has been uneven, so that three quarters of refugees and displaced persons returned to the Federation of BiH, while the rest returned to the RS. About 20,000 people returned to the Brcko District, which is a separate administrative area. Janz said that security problems were not so prominent as they had been before, and that economic issues would have an increasing effect of the quality of life of the returnees in the future.

The Steering Board of the Brewery, with <b>Dusan Lajsic</b>, has reached a decision to sign a contract on the construction of the bottling facility with "Coten" firm from Belgrade. The firm is in the ownership of <b>Djordje Lajsic</b>, the RS Minister of Economy, Energy and Development and a brother of the above-mentioned Dusan Lajsic. VL notes that Mobilkom would, after acquiring 99,5% of the shares, offer HT Mostar 20% of shares in Eronet in exchange for the licence for 3<sup>rd</sup> GSM operator in BiH.</p>

<b>FBiH Finance Minister Dragan Vrankic on VAT</b>	<b>Slobodna Dalmacija</b> , pg 16, 'Multi-level VAT is harmful', by <u>B. Magas</u> , <b>Oslobodjenje</b> pg 8 'Three rates not helpful for poor people', <b>Dnevni Avaz</b> pg 8 'Changes to draft VAT law will be at the cost of poor people' – <b>Dragan Vrankic</b> , FBiH Finance Minister, issued a press release which reads that the goal of VAT is simple as it is created to efficiently and in a just way collect funds for public expenditures which, again, directly or indirectly go to social services. As the amendments to the Law suggest introduction of a number of VAT rates, Minister Vrankic is of the view that multi-rate system would make it more difficult for BiH authorities to provide social welfare, particularly to socially most vulnerable categories, as such a way would make evasion of tax payment possible and would open up space for more corruption. On the other hand, the zero rate for some products would mean more expensive administration and serious harm in struggle against frauds.

<b>VL: Mostar city areas employees complain about Mostar City Administration systematization</b>	<b>Vecernji List</b> , pg 6, 'Confusion in systematization', by <u>Miroslav Vasilj</u> - employees of former Mostar Municipalities, now city areas, claim for VL that confusion is the only word to describe the situation regarding systematization of the Mostar City Administration. Asking the journalist for discretion, these employees express their dissatisfaction with the fact that they learn information coming from the City Administration from media instead from the competent Service and as examples they mention decisions on collective leave, information on holding of City Council sessions, publishing of internal vacancies for positions of Heads of Departments. In their opinion, such practice decreases city areas employees' chances for employment and brings them into discriminatory position in comparison to City Administration employees. They add that the published vacancies are just a farce deluding the public and the International Community.
