Spiric on defence reforms and population census	<p>CRHB, RTRS, Nezavisne Novine pg. 5 'SNSD insists on abolishment of recruitment', Glas Srpske, pg. 2 'Fear from census', Oslobodjenje pg 6 'SDA doesn't want population census', Dnevni Avaz pg 4 'SBSD delegates will not vote' -SNSD representative and the BiH House of Representatives Speaker Nikola Spiric confirmed that the party will not vote for the adoption of the Law on Defence if it envisages recruitment, as SNSD is of stand that BiH should be demilitarised state with only professional army. In the case certain principles are not changed, they will not vote for the adopting of the Law on Indirect Taxation either. The party especially objects the provision on the Chairman of ITA management board that states that s/he must be a foreigner. In addition, party also opposes too wide powers to be exercised by the Director, while the principle of division of the resources is not considered good. Spiric also adds that he opposed international auditors' to perform distribution of indirect taxation incomes in five-year time. Regarding the population census, Nikola Spiric said that SDA was not in favour of it, as it would finalize any SDA's story on dominance of Bosniaks in some regions.</p> <p>Blic pg 13 'SDA and HDZ do not want census', Dnevni List pg 7 'SDA and HDZ do not want to have census' - On new census in BiH, Spiric stated: 'Majority of several hundreds of thousands of BiH citizens who went abroad and took foreign citizenship are the Bosniaks, so a census would deny SDA's stories on the Bosniak domination in these areas.' He adds that the HDZ is also against organization of census because of similar reasons. Talking about the position of the Serbs in Mostar, Spiric notes it is "very difficult" and that the assimilation of the Serbs in the city has begun. Spiric also notes that there are no Serb representatives in the Mostar Commission and that, when it comes to employees in the administration, out of 126 employees, only 3 are the Serbs.</p>

Lozancic: some FBiH officials could be dismissed	CRHB, Dnevni List front, pg 3 'Possible changes in Government of Federation of BiH', Slobodna Dalmacija pg 17 'Possible removals of ministers', Dnevni Avaz pg 2 'Dismissals in government possible' – In an interview to FBiH Radio, FBH President Niko Lozancic announced a possibility of certain staff changes in the FBH Government. Of course, this is to happen if he was proposed to do so by the FBiH Prime Minister Ahmet Hadzipasic. 'A number of ministries in FBiH Government have harder time coping in existing situation.' – said Lozancic adding that together with his deputies he will review the work of the government and every individual minister by the end of year. Lozancic stated that ministers have to be more determined and responsible in their field. Asked whom the government is responsible to, to the Parliament, himself or the parties, Lozancic answered: 'The government is mostly answers to OHR, then in lesser extent to the Parliament and the least to Vice Presidents and me.'
Cavic on Tihic speech during Izetbegovic's funeral	Blic pg 13 'Without Srpska there is no BiH either', Dnevni List pg 10 'Tihic's announcements on disappearance of RS are big illusion', Nezavisne Novine pg. 2 'Tihic statements on Republika Srpska abolishment are pure illusion', Glas Srpske pg. 3 'Sarajevo as Teheran' – In an interview to BH Radio 1, Cavic said that "as much there is BiH, so much there is Republika Srpska. If there is no Republika Srpska, there will be no BiH either. Tihic and also those like Tihic should know this.' RTRS – RS President added he was more worried by Tihic's statement that Izetbegovic was buried on 'shehid' graveyard at his own wish, while it is general knowledge that shehids are not fighters for the state, but Islam.
Terzic criticises Party for BiH	Nezavisne Novine cover, pg 3 'Crisis to appear in the Federation of Bosnia and Herzegovina' – Safet Halilovic, President of the Presidency of Party for BiH, again warned coalition partners, especially SDA, that Party for BiH would seriously re-consider its further participation in authority, if it assessed that the implementation of reforms did not bear expected fruit. The Chairperson of BiH Council of Ministers, Adnan Terzic, responded on this announcement by saying that Party for BiH should indeed re-consider its further participation in further authority, because the only goal it has is related to personnel affairs.
Party for BiH supports united Mostar	Dnevni Avaz pg 3 'Mostar must be united', Oslobođenje pg 5 'Mostar indicates whether we are for BiH', Dnevni List front, pg 3 'Party for BiH for single Mostar' – the Presidency and Executive Board of Party for BiH held a session in Mostar yesterday, unanimously adopting a document the party will insist on in the process of making of the new Statute of Mostar. The document the party Presidency has adopted, treats Mostar as one unit of local self-government with its statute, budget and single city administration. According to Sahbaz Dzihanovic, an advisor of the SBiH in the Mostar Commission and Vice President of SBiH, there are parallelisms in the City administration of Mostar, the role of City Council is diminished and the municipalities have all the authorities. "The 1991 census is the basis we must start from in finding solutions for the city of Mostar", said Dzihanovic adding that even the little progress in Mostar is a product of the IC's influence. Former Mayor of Mostar, Safet Orucevic, stated that the SDA had betrayed the unification of Mostar and that an image of the SBiH, as traitors of the Bosniak people, is being served to the public. "I am the traitor because I fight for abolishment of three municipalities with the Bosniak majority, but I also fight for the City of Mostar in which the Bosniaks are equal", says Orucevic.
VL: Ferhatovic is advisor to Winterstein	Vecernji List pg 4 'Ferhatovic is Winterstein's advisor' – VL reports that "Enver Ferhatovic, a university professor of Sarajevo Law School, is an advisor to the President of OHR's commission for administrative restructuring of Mostar and making of its statute, Norbert Winterstein. Ferhatovic is close to the SDA top and is a member of that party so the objectivity of his counseling role in the Mostar Commission is questionable.'

Update on the newest wiretapping affair in Sarajevo	<p>Oslobodjenje cover, pg 3 'Why investigator Sufta kept quiet?' by <u>S. Mesetovic</u> – Daily wonders whether the newest wiretapping affair in Sarajevo, which includes 30 foreign diplomats being bugged in Olomanka building just next to OHR building in Sarajevo, will 'shake' foreign judiciary stationed in our country. Oslobodjenje claims that the international investigators of the Independent Judicial Commission Ismet Sufta, an Albanian from Pec, as well as his colleague Kerim Celik received several complaints from Izet Hajradinovic, owner of Olomanka building, in regard to his conflict with Albanian Kabas Krasnici. However, mentioned investigators failed to respond to the claims, while Krasnici also filed complaints in Olomanka case and was answered in the shortest time. Oslobodjenje's account of the case background: after three years of court procedure where Krasnici and Hajradinovic were arguing about the ownership over the building, Sarajevo Cantonal Court confirmed the building was owned by Hajradinovic. However, Krasnici appealed to this decision, and managed to transfer the case in Zenica where he allegedly had connections in Cantonal Prosecutors' Office and Court. Oslobodjenje writes that Zenica judge Mustafa Hasic decided that building was not Hajradinovic's, while judge Nermin Tesnjak [following request by cantonal prosecutor Ahmed Agic] issued search warrant of the building in Ljubljanska street no. 9, which was carried out by the FMol last month. Tesnjak also ordered bugging Hajradinovic's phone numbers, without knowing that he had registered 31 phone numbers and that half of the diplomatic core resides in his building.</p> <p>Nezavisne Novine pg 2 'Court in Zenica ordered wiretapping of building in Ljubljanska 9 Street' – The OHR Spokesperson, Oleg Milisic, said that international community institutions do not comment on intelligence activities in BiH, even when there is a possibility that international officials may be subject to such. Zlatko Miletic, Police Director at the Federation of Bosnia and Herzegovina, confirmed that wiretapping was indeed requested, but never implemented.</p>
Update on issue of SIPA HQ	<p>Dnevni Avaz pg 8 'Why nobody from authorities issued tender for SIPA location?' / 'I have agreed to Lukavica' by <u>E. Sarac</u> – BH Civil Affairs Minister and a member of the Council's of Ministers Board for Political Issues Safet Halilovic stated for DA that he never agreed to locating SIPA [State Information and Protection Agency] in Lukavica. 'I claim that I never agreed to, voted or accepted SIPA HQ to be in RS territory, that is in Lukavica.' – claims Halilovic. The issue around SIPA headquarters was raised after Board for Political Issues of the CoM forwarded the proposal for Lukavica to CoM, however CoM Chairman Adnan Terzic took it off the agenda saying that the Board never consulted him. Both Terzic and SDA President Sulejman Tihic strongly opposed such initiative, adding that important security institutions would be located in RS, that would make them at 'disposal of Radovan Karadzic'. After media report on this, another member of the Board, BH Human Rights and Refugees Mirsad Kebo also denied he agreed to the proposal [other two members of the Board are Barisa Colak and Slobodan Kolac], for which Avaz claims that foresees moving into the building in Lukavica that has not yet been fully reconstructed, which would cost tax-payers and budget users 9 million KM. At the end, DA says that only strange issues is why Minister Barisa Colak did not issue tender for the best offer.</p>
VL on coup d'état affair	<p>Vecernji List pg 3 'Coup promoted by Croats' by <u>Zoran Kresic</u> – VL reports that inspectors of the FBiH Interior Ministry and Federation Intelligence Service (FOSS) questioned a Croat (female) employee of the Secretariat of the BiH Presidency about the report on the 'coup d'état' which appeared in the Sarajevo press before the Presidency members had a chance to read it. The author believes that this indirectly accuses the Croat employees and the whole Office of the Croat member of BiH Presidency of continuation of the affair, noting that the affair, in fact, was between the Bosniak top from SDA on one, and Zlatko Lagumdzija and Munir Alibabic Munja on the other side. VL also notes that first reports were published in Ljiljan magazine, labeled by VL as 'unofficial paper of SDA and Bosniak member of BiH Presidency.' VL also notes that many employees of Sulejman Tihic's office came in from Ljiljan.</p>

Maric added all three public broadcasters collected only about 1.8 million KM, which is a third of the amount state television was collecting through subscription before the war. In regard to staff reduction, Maric could not give details. FTV Director in resignation Jasmin Durakovic said citizens must not allow private media stations to become more listened to/watched than public ones. BHTV 1, CRHB - Drago Maric, a keynote speaker at the session, stated: 'PBS system is a modern concept in line with best European practices. We enjoy large independence, but lack of financing has been serious problem.' Legal issues	
NN interview with IJC Head Rakel Surlien	Nezavisne Novine pg. 8 'Better laws for better judges' - NN carries out the page-long interview with Rakel Surlien, IJC Head, who has been engaged in judicial reform in BiH. Commenting on press question why results of the ongoing judicial reform are not observable as yet, although eight years passed since the war ended, Surlien said that it takes time to implement radical reforms. She noted that reforms IJC launched include new Laws on Criminal Proceedings, etc. According to her, these Laws will increase efficiency level of judges and prosecutors. She also said that the first effects of the implementation of these Laws would be seen sometime at the beginning next year. She also referred to a third phase of reform, which includes reorganisation of courts and prosecutor's offices. (For example, there have been 98 prosecutor's offices in BiH and this number is to be cut down to 18.) She added that number of judges is to be cut, while the number of prosecutors is to remain more or less the same, because the responsibility of prosecutor's has been expanded with these new Laws. She added that IJC has so far received 3800 complaints against the work of judges and prosecutors. On this, she added that not single of these cases is related to corruption.

ICTY

DL interview with ICTY Outreach in BiH Refik Hodzic	<p>Dnevni List front, pg 2 '500 cases with label 'A' returned to FBiH courts' <u>by I. Glibusic</u> - DL carries that during the last few days 5 court cases with label "A" arrived to BiH from the ICTY, which disturbed the public. In an interview given to the Radio Free Europe, an ICTY Outreach in BiH, Refik Hodzic, stated that those are not the court cases of the ICTY but of domestic courts that deal with processing of the war crimes. According to Hodzic, so far, over 500 cases sent to the ICTY were returned to the courts in the FBiH under label 'A' and about 30 cases to the Republika Srpska. Hodzic also announced that a conference, which will see participation of high-ranked officials from the ICTY, would take place on December 5 and 6 in Sarajevo. According to Hodzic, the ICTY representatives will try to explain to the victims what it is about when small sentences are passed and when early release is in question. Hodzic added that they will try to explain the system according to which ICTY is working, because the institution of pleading guilty and making an agreement between the Prosecutor and defense is something that people in BiH are not familiar with.</p>
