Masic case	Glas Srpske pg. 3 'Surprise over Republika Srpska MoI report', Nezavisne Novine pg. 6 'Surprise over report of Republika Srpska MoI on Gorazde Mufti' – the Islamic Religious Community (IRC) in BiH is surprised at a report presented by Chief of the RS MoI Crime Police Management, Milorad Jelisavac, charging the Gorazde Mufti, Hamed Efendic, with provoking national and religious hatred displayed in his speech at the funeral of the murdered Bosniak returnee, Safija Masic. The IRC welcomed the swift and efficient police operation to identify the murderer, but added that it would be good if the RS MoI were so swift and efficient in identifying persons responsible for the murder of Murat Badic. He was killed during the Ferhadija riots in Banja Luka on 5 May 2001. A press release issued by the IRC also noted that 'at the funeral, Efendic said something, what everybody already knew'. According to EUPM Spokesperson Jon Oscar Solnes, the murder of Safija Masic was unnecessarily politicised.
PDP on Masic case	Nezavisne Novine pg. 6 'Over exaggerated politicisation of the murder of Safija Masic' – according to yesterday's press release issued by the PDP, the resolving of the murder case in Serb Gorazde, when returnee Safija Masic was robbed and murdered, was of extreme importance, especially bearing in mind the over exaggerated politicisation of this case. Commending the arrest of Nihad Masic as the main suspect for the murder, the PDP expressed full support to ministries of Internal Affairs of the Republika Srpska and Federation. The press release also expressed a conviction that representatives of religious communities and media from the Federation would demonstrate more patience and tolerance in the future, as well as more trust in the Republika Srpska institutions.
NN editorial	Nezavisne Novine editorial by <u>Muharem</u> Insanic pg. 7 'Alarm has been set' – the author refers to objective international and domestic (analytical) sources, according to which the social, economic and political situation in BiH reached 'the alarming stage'. He is also of the opinion that chances of seeing such situation change are small. He is also critical of the ruling coalition of nationalistic parties, stressing that he and People's Democratic Party of BiH saw it coming on the eve of the last elections in BiH. According to him, the most frequent requests for convening new elections do not surprise at all. "It is not pathetic nor over exaggerated dramatisation if I conclude that the patience of our citizens and the threshold of their tolerance reached its ultimate level. The current and coming authorities should seriously think about these issues, which raise concerns." He also notes that officials of the international community should also deal with these problems and start having serious doubts in the functioning of such a political coalition in BiH.
Supervisor Clarke	Brcko Supervisor Henry Clarke said on Wednesday the Brcko District should make two major steps before it was ready for the local elections. "The first step is passing of a truly democratic election law and the second step is qualitative registration of voters." He confirmed at the first press conference after summer holidays that the election law should be passed by the end of the month. "I think that delegates and political parties had plenty of time since the law's entrance into the parliamentary procedure to articulate reasonable amendments, which will enable the harmonization of the final text of the law," he said. He criticized poor response of citizens to the registration process. Supervisor Clarke praised the Assembly for reaching compromises in solving ethnically sensitive issue – dislocation of mono-ethnic monuments from the Brcko center and the adoption of principles for erecting new monuments. Also reported by SRNA, BN TV, Radio Brcko District, HIT TV, Nezavisne Novine, Dnevni Avaz, Vecernje Novosti, Blic.
DL editorial on SDS - SDA dispute	Dnevni List pg. 2 by <u>Miso Relota</u> 'Warmongering statements by officials of SDS and SDA' – amid numerous exchange of statements between officials of the SDA and SDS, Relota says statements and reactions are in fact a sign that the current organizational set-up in BiH is the main obstacle to normalisation in BiH. Relota says there should be a discussion of new set-up that would satisfy needs of all constituent people because 'this cannot go any longer'. "This is probably clear to the IC too. As long as all three peoples are not satisfied, there will not be peace in this state," concludes Relota.

DL on BiH diplomacy	Dnevni List pg. 6 by <u>Anica Tomic-Babic</u> 'BiH diplomacy turns snowballs of lies into avalanche' – criticizes the BiH diplomacy in the situation when a modern day diplomacy is mostly dedicated to economic and cultural issues i.e. creating new jobs, various joint ventures, attracting investments, something that, according to the author, the BiH diplomacy is not doing. Furthermore, the author says the BiH diplomacy is burdened with parallelisms and information leaks, which usually wind up in the press as 'scandalous' stories. Tomic-Babic suggests that the BiH Foreign Minister should evaluate the work of all ambassadors, and then ambassadors who pass would evaluate their subordinates in respective embassies.
Zigic on steering boards	Avaz pg. 1 and 4 – Federation Minister of Industry and Mining, Izet Zigic, said they would suggest to the Federation government to respect recommendation of the Federation ombudsmen and cancel the appointment of presidents and members of steering boards in public companies. OSCE	CRHB at 18:00 hrs - "The process of the administrative uniting of two Mostar grammar schools will be completed by September 1 st , but they will not be physically united," stated OSCE Spokesman at a press conference held in Mostar on Wednesday. The building where the 'Fra Dominik Mandić' grammar school doesn't fulfil the requirements needed to place over 600 students since there are only five usable rooms in the building. OSCE Spokesman supported a statement of the Vice Chairman of the HNK government Miroslav Coric regarding the administrative union of the schools. Coric stated he would make all necessary efforts on submitting the instructions for the uniting of schools. BHTV at 19:00 hrs by <u>Martina Kristo</u> – the OSCE Mission in BiH directed the Herzegovina-Neretva Cantonal Education Ministry to issue by the end of this week guidelines for the abolishment of the administrative duplication in the schools. "We have seen a lot of obstruction by the authorities at all levels in this Canton and attempts to avoid their responsibilities," said Richard Mesic from OSCE Mostar. The OHR gave deadline to the HNK Education Ministry to submit guidelines on the administrative unification of the schools. Otherwise, sanctions against those responsible are possible.
Catholic Centre in Konjic	CRHB at 18:00 hrs - "It is still not clear if the IC's instructions on the uniting the 'Two schools under One roof' refers to the Catholic Schooling Centres," stated Director of the Catholic Schooling Centre in Konjic Anto Ledic. Since all catholic centres have a uniform syllabus, Ledic said that the reforms would probably not be yet implemented in these schools. "Catholic Schooling Centre in Konjic has not yet received any instructions from the IC or the cantonal Ministry, and it is preparing for the new school year," said Ledic. Dnevni List pg. 12 'Catholic School Centers will be working according to their curriculum'.

'Fra Grga Martić' grammar school	DL pg. 14 'Gavran: Include Grammar School 'Fra Grga Martić' in integration too' – the School Board of 'Fra Dominik Mandić' grammar school held another session yesterday to discuss the unification of two Mostar grammar schools and the Board reiterated the already stated conditions. Secretary of the aforementioned Grammar School, Anto Gavran, stated: "We should have a complete program of unification, and not the one that we received from Head of the OSCE Mission in BiH, Robert Beecroft, which is full of misinformation."
Lozancić	CRHB at 18:00 hrs – Federation President Niko Lozancić proposed to the Federation Minister of Education Zijad Pasić to submit an initiative to the Federation government that would result in examining of the possibility on providing free textbooks for students in elementary schools. Lozancić also invites Pasić to propose to the government a partial financing of this project for the cantonal ministries of education that could not provide the necessary funds on their own. Also in Avaz pg. 3 'Free textbooks for children in primary schools' and Oslobodjenje pg. 1 and 4.
IC press conf in Mostar	Dnevni List pg. 1 and 14 – a report from the regular press conference of international organization in Mostar during which the OHR stressed that the education ministers in Cantons 6 and 7 must issue instructions on the unification in order to put an end to double administrations in schools. "These reforms will result in the decrease of amount of money that is spent on the administration and will be re-routed for children and teaching staff," stressed the OHR. Answering to a question whether it is possible for two Mostar grammar schools ('Fra Dominik Mandić' and 'First Grammar School') to be unified by the start of the new school year, OSCE spokesperson, Richard Medic, stated that the process of administrative unification of the schools was in progress and that the unification would take place beginning of the school year. As for the physical unification of the schools, Medic stressed that the premises of the Old Grammar School would not be able to accommodate 600 students from the two schools. Medic reminded that one of the pre-requisites for the reconstruction of the building of the Old Grammar School, as set forth by the IC, was the implementation of the Integration Plan. Due to numerous obstructions, the Plan has not been implemented so the IC did not have a chance to provide funds for the reconstruction.

Economic Affairs

Racan on 5c	<p>CRHB at 18:00 hrs – Croatian Prime Minister Ivica Racan stressed that the Croatian government at a session on Thursday would establish the contents of the letter of intention on Croatia’s participating in the construction of the 5c corridor. Racan also expects a meeting with BiH Prime Minister Adnan Terzic to be held soon, when the Article 9 of the Agreement on Ploce harbour would be modified. “With this act I want to confirm my conviction that the relations between BiH and Croatia are improving,” said Racan. BHTV at 19:00 hrs – “We are not just generally interested, but in this case we are directly interested for that motorway to be built as soon as possible. We are ready to finance between seven and nine million US dollars for the construction regardless of the fact whether our or some other companies will be awarded the work at the international public tender,” stated Racan. FTV at 19:30 hrs by <u>Melisa Sefer</u> – Račan said: “It is not important which companies will get the contract, but it should be done through the international tender...our proposal anticipates 14 years of concession or loan, which is much shorter then other offers...our calculation for preliminary works is cheaper for 100 millions KM...our offer will be delivered tomorrow.” Dnevni List pg. 1 and 3 – PM Racan did not want to go into the issue of ‘Bosmal’ getting the job, stressing it was the bodies in BiH that had to take a decision and deal with consequences. PM Racan hopes that he would be meeting Terzic in the next two days ‘somewhere halfway between Zagreb and Sarajevo’, possibly at Kostajnica. On the same issue Vjesnik pg. 1 – carries PM Racan as saying: “Croatia is ready to fund the project documentation if an international public tender is to be invited, at which we expect that the best bidder will get the job, regardless whether it is Croatia or other companies.” An insert with the article entitled ‘The media stories’ – reports on an article published on Wednesday in the Zagreb based Vjesnik where they suggest that ‘Bosmal’ intends to buy the land by the highway to be able to later sell it for much higher price. On Tuesday, Slobodna Dalmacija revealed that Croatian offer was cheaper than ‘Bosmal’s’ offer for \$100 million. The daily suggests that such articles do nothing but confuse people and can only have negative consequences for the two states. Oslobodjenje pg. 1 and 7.</p>
Terzic on 5c	<p>Avaz pg. 1 and 2 – commenting Racan’s statement (he said BiH bodies could opt for other solution than international tender, but then would have to face the consequences), CoM Chair Adnan Terzic said that no one in BiH would have to make decisions that would lead to facing of any consequences. “PM Racan should not worry about BiH and consequences that it would have to face upon making decisions. And if he really wants to worry about BiH, then he should focus his concern by making efforts for concluding other issues such as the return of Croatian refugees that are still in BiH, as well as speeding up of the signing of a contract on property -legal relations.”</p>
Hays, Hadzipasic and Mikerevic	<p>BHTV at 19:00 hrs by <u>Renata Katic</u> – PDHR Donald Hays and entity PMs Ahmet Hadzipasic and Dragan Mikerevic yesterday visited ‘Metalno’ company from Zenica, coke-chemical combine ‘Lukavac’ and ‘Sava’ company from Bijeljina. In the Lukavac combine, they met with union representatives from different parts of BiH. Before the war, the combine employed about a million of workers, while the current union information shows the number of workers are about 400,000 today. “You must understand that some businesses will be shut down, while some other that have a chance will need investments to start,” said Hays during the meeting with BiH union reps. The international community gave entities 18 months deadline to implement economic reforms, which would improve the conditions of the economy in BiH. Having in mind that economy in BiH faces a large number of problems, the question is where to start from. “The opening of a large number of those fronts can surely suffocate quality improvements. So, we have to go with the strategy. There are programs, support of the international community exists,” said FBiH Prime Minister Hadzipasic. Union representatives announced protests. RTRS at 19:30 hrs by <u>Vesna Vukovic</u> – Mikerevic stated that privatisation process was too slow, but stressed governments of both entities, together with the international community, would find strategic partners that would provide technological and other development. Journalist paraphrased High Representative as saying that in this mass grave there were Bosniak victims of crime based on ethnicity, which requires bringing perpetrators before the justice, which is blind and knows no ethnicity. "Undoubtedly the worst, probably the worst mass grave in BiH. During the war a large number of crimes were committed in this region, but those were not the only crimes that occurred in BiH. Too many people, members of all peoples in BiH, suffered because of those people who were part of all peoples. Justice that we seek is impossible to escape. Those who committed crimes here must be punished," stated Ashdown at the site. Glas Srpske pg. 2 'Ashdown condemns crimes', Nezavisne Novine pg. 8 'Republika Srpska authorities should co-operate'.
