Inzko Visits Children's Circus Camp in Srebrenica

High Representative and EU Special Representative Valentin Inzko visited Srebrenica to support the children and young people who, after five days of rehearsals, performed a circus gala show on 5 September 2009 in that town. "Children and young people are the future of Bosnia and Herzegovina , and am very pleased to have been able to meet with a group of them today. Friendship among children and team work are the best basis for sustainable return and long-term reconciliation", Inzko said.

The circus camp in Srebrenica was organized by Austrian humanitarian organisation "Bauren helfen Bauern" (Farmers Help Farmers) with the aim of building a multiethnic sense of community and team work among children.
