

Trainees Shall Have Their Rights

Aim of amendments to the Law on labor is to encourage hiring of young and educated people

[P.5] FBiH Government session that took place on Monday was fully dedicated to implementation of the Bulldozer Committee proposals. The proposed amendments to the FBiH Law on chambers of commerce anticipate six-month interim period, when new legal provisions shall be implemented. This was done so that chambers of commerce are able to transform and start functioning based on the new organization, as the key change in the Law is abolishing of compulsory membership in chambers of commerce.

Membership in the FBiH Craft Chamber shall also be voluntary, instead of the existing compulsory membership, in accordance with defined amendments to the Craft Law.

The possibility of hiring trainees without being full time employees, provided that they have certain rights on health and pension insurance and the right on a fee (at least 80% of the lowest salary, with the possibility that the employer and trainee agree on a higher amount), break during the working day, between two working days in a row and a weekly repose are novelties in the proposed

Law on amendments to the Law on labor.

During the training, a trainee shall not be erased from the records on the unemployed.

The aim of this change is to encourage employers to hire young and educated people.

Aim of the solutions that will be proposed in amendments to the Law on company profit tax is to avoid double taxation. In this field, it is necessary to define identical solutions in both entities, FBiH Government announced.
