OHR welcomes adoption of Bulldozer Committee reforms

Bulldozer Recommendations To Be Turned to Laws

BANJA LUKA – OHR Banja Luka Spokesperson, Sonja Pastuovic said yesterday that the High Representative in BiH welcomed the fact that state and entity authorities, as well as Brcko District constructively and timely reacted in terms of adopting Bulldozer recommendations. Pastuovic added that FBiH Government had two more reforms to adopt and that the RS government already adopted all of 19 reforms that apply to this entity.

"Now it is up to parliaments in BiH to complete Bulldozer Committee recommendations and turn them to laws," she emphasized. Reminding that there will be a meeting between representatives of RS and FBiH governments in Banja Luka on Friday in order to discuss harmonization of Bulldozer reforms, Pastuovic added that future laws on the state level should be harmonized in this way.

She emphasized that one of objectives of the Bulldozer reforms was to stop withdrawal of foreign investments in BiH that are necessary for creation of new jobs. She announced that after completion of the first Bulldozer phase, another 50 reforms would be presented, in order to be implemented by the end of the year.

LRC Lending Office welcomes decisions of the Council of Ministers

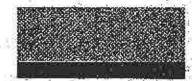

LRC Lending Office welcomes economic reforms that will follow after passing of decisions of the Council of Ministers, proposed by the Bulldozer Committee. LRC Lending Office, as a service that works on strengthening of financial discipline in BiH supports adoption of other reforms as well, whose importance shall be recognized by both BiH Parliament representatives and entity authorities, they announced at LRC. LRC Lending Office sees the possibility through reforms that BiH sends a signal to foreign investors and local businessmen that the time of a transparent and safer business has come and that BiH is ready to meet such challenge.

Clark: Brcko supports Bulldozer project

Brcko District supports the Bulldozer project and its representatives shall participate in a meeting on Friday in Banja Luka with representatives of FBiH and RS governments to discuss practical implementation of the project. Brcko District Supervisor, Henry Clark stated this today. Clark pointed out two important things regarding tax policy – that taxes must be collected and distributed fairly and that is should be done within a single economic space. Bulldozer Committee proposed that the best way for sales tax collection is to do it at production and import points. "There is no conflict between myself and OHR in Sarajevo about this basic definition, not there is any conflict between the Mayor and Brcko District Assembly and the Bulldozer Committee," Clark said. "If there was a conflict related to the

Bulldozer Committee concept, the District Assembly would not have adopted five out of six Committee proposals on Monday," Clark added.
