

Bulldozer II

Agreed Dynamics and Way of Implementation of Bulldozer II Reforms

[P.6] SARAJEVO – In the meeting of representatives of FBiH ministries on Tuesday at the FBiH Government building, chaired by the government secretary, Ismet Trumic, also attended by the OHR coordinator, Benjamin Herzberg, they agreed on a way and dynamics in implementation of Bulldozer II reforms. Welcoming the attendees, the FBiH Prime Minister, Ahmet Hadzipasic emphasized that FBiH Government absolutely adopted Bulldozer Committee reforms and fulfilled obligations anticipated in the first phase of work. FBiH Prime Minister described the continued work on these issues within the Bulldozer II project coordinated by the OHR as assistance to the government to select and find the most favorable solutions in the forthcoming reforms. He also thinks it is necessary to take care of the importance of the solutions globally and their contribution to progress of groups and economic branches, in order not to get into a position to search for solutions based on microeconomic interests.

Task of the commission consisted of experts from FBiH ministries, which will be verified by the FBiH Government as a body responsible for implementation of reform steps within the Bulldozer II project, is to select proposals from the field (that relate to amending of the existing and preparation of new laws and other regulations, aiming at creation of a more favorable economic environment in FBiH) in cooperation with the OHR and regional committees.

130 regulations should be prepared in the next six months, FBiH Government press release read.
