BiH State-related Issues

Sejfudin Tokic Comments on BiH Accession to Council of Europe – Better Cooperation With the ICTY Necessary

BiH media quote the Deputy Chairman of the House of Peoples, Sejfudin Tokic, as saying that the Council of Europe will not expand the list of prerequisites that BiH has to meet in order to gain accession to the CoE. "After the CoE adopted the report, submitted by the CoE Rapporteur for BiH Lazslo Surjan, it has become quite obvious that BiH will become a member of the CoE. BiH will have to improve the cooperation with the ICTY and to ensure extradition of war crime indictees. From the CoE's point of view, the eventual postponement of arrests and especially the arrests of Karadzic and Mladic, will no longer be tolerated", says Tokic.

At a plenary session today, both chambers of the

BiH Parliamentary Assembly to discuss measures against terrorism

At a plenary session which is scheduled for later today (Tuesday), deputies in both chambers of the BiH Parliamentary Assembly will discuss the CoM (Council of Ministers) proposed plan of activities related to the fight against terrorism. The plan will be presented by the chairman of the Council of Ministers, Zlatko Lagumdžija, while participants will also consider measures aimed at strengthening the coordination and communication between the BiH Parliament and the Council of Ministers.

BiH Parliament's House of Peoples passes in the first reading the five CIPS laws

After a lengthy discussion, deputies in the BiH Parliament's House of Peoples passed, in the first reading, the set of five laws, better known as the CIPS (Citizen Identity Protection System) laws, which are to bring BiH closer to European integrations. These laws include the draft Law on Identity Card, the Law on Central Database, the Law on Protection of Personal Data and the Draft Law on Identity Number of BiH citizens. Oslobodjenje report that a number of Serb deputies objected to this set of laws claiming that they are not grounded in the BiH Constitution. Nikola Spiric, a Serb deputy, said that such laws would give too much power to the state at the detriment of the entities.

The BiH minister of civil affairs, Svetozar Mihajlovic, said that it is in the interests of all the people in BiH to have the area of personal identification regulated at the state level. Addressing the BiH House of Peoples on the need to pass the CIPS, Mihajlovic said the events in the US demand the urgent adoption of these laws.

State border between BiH and Yugoslavia will be

defined: 6 border crossings between BiH and Yugoslavia

Zeljko Obradovic, the President of the Inter-State Diplomatic Commission for the State Border between BiH and Yugoslavia and a member of the Presidency of the State Commission for BiH Borders stated for Dnevni List that border lines between BiH and Yugoslavia should be agreed upon until the end of this year. At the moment, the Inter-State Border Service is mostly preoccupied with works on the identification and defining of the state border between Yugoslavia and BiH. As far as Croatia is concerned, activities still stagnate, however, as Mr. Obradovic himself stated, a new Commission for Borders has finally been appointed, and the continuation of activities on the works regarding a further defining of the state border between two states is being expected.

In a short interview with Dnevni List, Grabovac said he would like to have 25 Aluminij Company-likes in the Federation as this Factory makes 50% of import in this entity. He stressed, however, that the principle of employment of only one ethnic group should be changed.

The secretary-general of the Serb Radical Party (SRS), Ognjen Tadic, said on Monday that a Mujahedeen training center was located in the village of Mitrovici near Zavidovici in central Bosnia, and called on the joint institutions in BiH to investigate the issue. "Around 400 Mujahedeen are being trained in the center at any given moment, and then leave for Chechnya from Sarajevo airport to carry out terrorist actions," Tadic said. He added that international officials in BiH knew about the center, but "tend to turn a blind eye because the terrorists actions are aimed against Russia".

SNS Top Official Says the Ruling RS Coalition Is Falling Apart

Spasojevic thinks that only mutual

blackmails keep the coalition partners together. Spasojevic also confirmed the story that appeared in the press over the weekend that the SDS is blackmailing the RS Prime Minister, Mladen Ivanic with the adoption of the RS Law on Cooperation with the ICTY and appointment of the SDS candidates to the Modrica Oil Refinery Steering Board. He also says that Zivko Radisic is also involved in the blackmails. The source told the daily that the High Representative, Wolfgang Petritsch, met with the Croatian Prime Minister, Ivica Racan, in Zagreb on Saturday and discussed the forthcoming HDZ BiH Congress. Slobodna Dalmacija: Tighten the control at borders to BiH

Editorial by Stjepan Kljujic

In an editorial about the state of the police force in BiH, Stjepan Kljujic writes that the police in BiH played a big role in political events during and especially after the war. When the Alliance for changes came into power, it had appeared that this was not to be the case any more but, as Kljujic puts it, two of the strongest political parties (SDP and Party for BiH) took over the control of the police structures in the Federation and biggest cantons. It turned out that there are still forces that want to gain the personal and supremacy within the party through police, without caring for damages inflicted to the state. Kljujic then writes about the topical issues, illegal citizenship, BiH IDs, buying of real estate by foreigners etc. and therefore creating a spy centre in BiH. Instead of serious actions now we see that some officials bodies are linked to immigrants. Is it possible to lose traces of 120.000 people who enter BiH every year, asks Kljujic. That sort of situation, together with drugs, white slavery, prostitution, resulted in a great interest of foreign intelligence services in BiH. Latest news from Zagreb suggest that the traditionally soft border to Croatia will be stricter

in the future because of Croatia's membership in the Partnership for peace. Kljubic then writes about personal weaknesses in the federation of BiH Ministry of Interior and misunderstandings between Minister of Interior Besic and the acting director Dragan Lukac that paralysed the police. Papers are full of sensational news, stories and accusations exchanged between the MoI principles. Instead of earlier announced measures that were going to sweep up the problems, the Alliance for changes did very little. News that Minister Besic is a member of a single-party (and single-nation) privatisation fund gave more motives for further speculations. The national balance at the senior posts, especially in the MoI in the Canton Sarajevo, has been jeopardised and the Alliance, despite efforts within it, did not correct the situation. That sort of police cannot deal with the problems, says Kljubic. Only the free-of-politics police force, that observes national representation, supervised by the parliament can be the solution to the problem. That would eliminate the efforts of those who want to control the police because of their private and narrow-minded interests and stop the democratisation process in BiH. Efforts to join the civilised does not have an alternative, concludes Stjepan Kljubic, reads Slobodna Dalmacija.

Vecernji List: It is still unknown if ICTY put Zenica Court in charge of Zepce case

Written by B. Janko

The trial against a group of Croats that had political and army duties in Zepce during the war has been condemned by all Croat political parties and Homeland War associations in Zepce, reads Vecernji List.

Cantonal Board of the HDZ and the Municipal Board of the NHI in Zepce warned the High Representative of non-objectivity and bias of the Cantonal Court in Zenica where no trial has been either conducted or announced against the perpetrators of

crimes against Croats. The objectivity of the Cantonal Court is questionable also because the person put in charge of the trial used to be a court marshal judge in the BiH Army, say the HDZ and the NHI.

Such trials remind Croats of Zepce of mujahedeens' attempts of entering the town from the direction of Zenica. One of those attempts resulted in the killings of a number of Croat civilians, women and children in Kiseljak near Zepce but no one has been convicted for that yet, Zepce Croats point out. They wonder how it is possible that 20,000 Croats could be a threat to over 500,000 Bosniaks.

The rumors as to whether the ICTY approved the trial to the Zepce Group add to the suspicions of Zepce Croats. Judicial sources claim the ICTY did authorize the Court in Zenica to conduct this trial, but others think that it was all staged and that such a document does not exist.

If lies get to be published, Zepce Croats wonder why a possible ICTY approval for each individual person on trial would not be published in the media as well. They hope to get an answer soon, otherwise it will turn out that this is a rigged trial against Zepce Croats, reads Vecernji List.

Petritsch: Judiciary must be independent

The Federation Defense Minister Mijo Anic asked the High Representative Wolfgang Petritsch to make sure that the Croats of Zepce are not judged by those who were on the other side of the front line. Here is how Petritsch commented on this request for Vecernji List: "I have a high opinion of Minister Anic and he belongs to a small group of outstanding politicians in this country. He is also a big Croat patriot. I will examine his request carefully and see what decision could be made in this regard. However, I wish to stress that the judiciary must be independent."

Jutarnji List: Alliance takes over the power in Mostar via Orucevic

Written by G. K.

A conflict between the Alliance for Changes and the Regional Offices of the OHR and the OSCE over the offered Action Plan for the Continuation of the Reintegration of Mostar has been topical over the last few days.

While the Alliance claims that the City Council adopted the document and is asking the OHR for the support in its adoption, which would even entail dismissals of the city and municipal officials that are refusing to implement it, the Mostar Mayor Neven Tomic says the document was not adopted at all.

The Head of the Regional Office of the High Representative in Mostar, Colin Munro, also claims that the Action Plan was not adopted in a democratic manner.

The Coalition for a Single and Democratic BiH, which is sharing the power in Mostar with the HDZ BiH, disintegrated after the SDP BiH and the Party for BiH walked out of it. The long-standing Mayor of Mostar Safet Orucevic left this duty a year ago and, with the appearance of the Alliance for Changes, became close to the Party for BiH.

The Action Plan for the Continuation of the Reintegration of Mostar was offered to the City Council as a motive for the Bosniak officials to declare themselves as to their commitment to either the Alliance for Changes or the Coalition.
