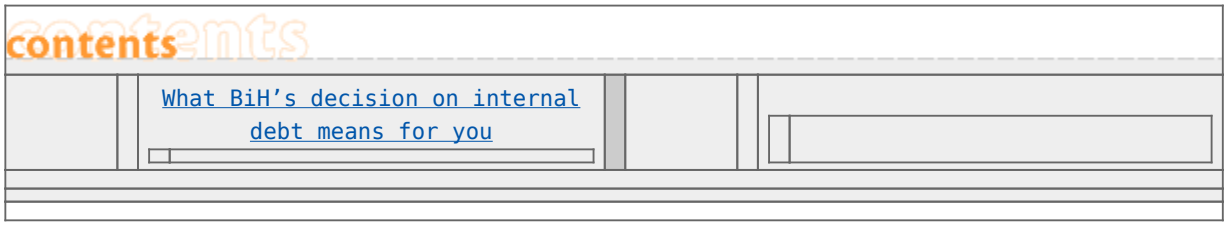
Concept and contents


What the BiH authorities’ decision on internal debt means for citizens of BiH?
In order to provide, in a clear and simple format, information about the agreement on managing the BiH authorities’ financial liabilities, reached by the prime ministers in December 2003, a press advertisement was published in January 2004. This explains the nature and volume of outstanding claims and the proposed method of addressing them. The ad also directs citizens to the relevant government departments (with telephone number provided) where further information can be requested.
