

OBN News Review, 30 August 1999

Sarajevo

The USA Congress Delegation visited Sarajevo today. The visit was initiated by The New York Times article, published on August 17th, about corruption in BiH. The head of the US delegation said that the USA financial help had also disappeared, although representatives of the State Department denied several times that the USA money had been stolen. In the press release, made by the USA Embassy in Sarajevo shortly after publishing of the article, it was said that there were two areas where the USA Government could have lost the money; the funds deposited in the BH Bank and unreleased credits that the USAID granted to BiH companies.
