HR Ashdown:

In five years BiH will have only one police minister

**Oslobodjenje** cover splash, pg 6 'In five years there will be just one Interior Minister in BiH' by A. Omeragic – The HR **Paddy Ashdown** stresses in an interview to daily it is of crucial importance for the Federal and BiH Parliaments to adopt the Agreement on police reform by the end of this week. Asked whether he expects any problems with the adoption, especially having in mind that the SDA delegates in the RSNA did not endorse it, Ashdown did not want to be specific adding nothing is over until everything is over. *"I am aware of the certain doze of concern, as text of the agreement is not concrete enough, but there are guarantees that the reform will be successful. The EC and US will act as the control power which will ensure respect of the three principles. If that doesn't happen we will ensure appropriate sanctions are undertaken... The goal is clear: single police structure at the state level with state powers. That means that until the end of reform implementation [five years] there will be no more police ministers at the lower levels and police regions will be established based on technical, not political criteria. And they will cross inter-entity border line where necessary,"* says Ashdown noting that this could be a case especially in Sarajevo , area between Foca and Gorazde and Bijeljina and Tuzla .

**TV Hayat** – Speaking for NTV Hayat, High Representative **Paddy Ashdown** wanted to cease/deny all speculations on police agreement passed by RSNA, confirming that police will definitely be organized on the State level, that police regions will cross entities' lines and that heavy sanctions will be imposed against those who try to obstruct the implementation. HR stressed that strong presence of international police will supervise the implementation of the agreement and that so will be done by Americans. He claims that RS Government was not informed of parallel talks with international officials on police reform – otherwise, RS Government would have attempted to take part in that process. He doubts implementation process would last five years, but instead we should not be surprised if solutions are reached by October next year. It speculates that <b>Dragan Cavic</b> has been mixing with these plans by making deals with the IC, which has started the plan to intimidate him. Twice he was in the focus of these attacks, says DA – first time when he was fixed up with the story that RS MoI <b>Dragan Matijasevic</b> ordered police to wiretap him [Cavic], and second when again Matijasevic ordered his security to be followed around.
