the HNK govt**

Vecernji List pg. 4 'The government is being established despite charges' –the leaderships of HDZ and SDA reached an agreement on the establishment of the Herzegovina-Neretva Canton government one day before an ultimatum set forth by the High Representative for BiH, Paddy Ashdown, saying a list of ministerial candidates had been sent to the OHR. VL goes on to say that despite the agreement has been reached before the deadline, one could now expect measures against further obstructions. Regarding reports that say that the Federation of Bosnia and Herzegovina (FBiH) Ministry of Interior has pressed charges with the HNK Prosecution against the HNC PM designate, Miroslav Coric, VL says a Deputy Prosecutor in HNC, Vikica Andric, stated the HNK Prosecution had not received the charges so 'officially it does not exist' for her. Regarding the charges against HNK Minister of Interior, Goran Bilic, VL carries Coric as saying the charges against Bilic and other HDZ officials were about politicizing at the time when the SDA and HDZ were finishing talks about the formation of HNK government. On the same issue, Dnevni List pg. 1 and 5 – the HNK Assembly should hold a session before noon today to discuss the appointment of the government and in that context read that Speaker of the HNK Assembly, Omer Cevra, had scheduled a session for today at 10:30 hrs. <p>People’s Party Prosperity through Work</p>	<p>Nezavisne Novine pg. 7 ‘The Bulldozer Commission showed failure of the government’ – the People’s Party Prosperity through work yesterday in Banjaluka assessed that the statement by Republika Srpska Premier, Dragan Mikerevic, that the Republika Srpska government would continue to implement the current economic policy did not leave any hope that the overall economic situation might improve in the near future. The Party further claims that the government should re-examine the results of its so far work, instead of insisting on further implementation of the so far economic policy without any proper arguments. The party further claims that the establishment of the Bulldozer Commission, which took over the re-structuring of the economic space in BiH, is the best indicator of the government failures.</p>

He says that daily they collect 3.8 million KM of taxes that go to the budget. He adds that the main problem of the Tax Administration are fictitious firms (up to know they discovered 257 of them) that evade hundreds of millions KM every year. <p>Oslobodjenje commentary on Vc corridor</p>	<p>Oslobodjenje pg. 2 'Will we get a highway?' by <u>Amra Kebo</u> – she observes at the beginning of the commentary that the issue of the construction of the Vc corridor is one of the actions equally supported by all local media. Also, ever obstructing RS political forces have showed interest in the project. Kebo notices that no such consensus was reached in BiH since the signing of the DPA and therefore should be used. She however adds that in cases as this one, when warring sides agree, there's always a third factor to bring in some uncertainty – the IC. According to Kebo, the IC has been silently watching the euphoria of local papers on the issue and IC reps did nothing but expressed their doubts in realizing the project. Kebo describes their behaviour as diversion, and the behaviour of the local politicians, who have most indifferent to it, as a symbolical diversion. In a conclusion states that the construction of the corridor will be a sort of a capability test for the local authorities and well-intention test for IC reps.</p>

Avaz pg. 3 'PBS BiH gets most of the property' – yesterday announced from the OHR that HR Broadcasting Agent, John Shearer, made a decision on the liquidation of the RTV BiH. Dnevni List pg. 1 and 3 – In accordance with the goal embodied in the Second Decision of the High Representative on the restructuring of public broadcasting in BiH to create economically and technically viable radio and television enterprises, all of RTV BiH's assets, liabilities and most of its technical resources were allocated to the Public Broadcasting Service of BiH (PBS BiH). RTV FBiH is allocated transmission networks that currently carry its broadcasts. The third broadcaster of the PBS, RTRS, was not involved in this process. The PBS BiH is to immediately pass the management rights over all property and technical resources to the PBS Media Centre.

<p>Interview with Kukic</p>	<p>Vecernji List pg. 1 and 5 – an interview with President of the Council of Radio and Television of Federation of Bosnia and Herzegovina (RTV FBiH), Slavo Kukic. On decision by the FBiH House of Representative that the RTV FBiH has to broadcast live sessions of the FBiH Parliament, Kukic says the following. “If the changes to the Law get the green light in the House of Peoples, namely if the High Representative does not react to it, then it is a signal that the Parliament is allowed to undertake the next change – the one that allows it to install the managerial body, meaning the director and editor-in-chief, in other words to establish the full control over the programming. In that case we’d be where we used to be.”</p>

<p>Pogorelica case</p>	<p>Vecernji list pg. 2 'No interference in the Pogorelica case' – the daily's source from the BiH Presidency has confirmed that the BiH Presidency will in no way get involved in the 'Pogorelica case' court process, as it would represent a political precedent unknown in the democratic world. According to unofficial information, the accused (Alispahic, Ljevakovic, Mujezinovic) are thinking about asking the BiH Presidency's help since their request to get the questions by the court appointed expert in writing has not been met. VL's source also adds that it is not in the interest of either the state or the Presidency to make any kind of reaction that could be interpreted as pressure on the independence of judiciary. Slobodna Dalmacija pg. 19 'Pogorelica case still at the deadlock: Bakir Alispahic responsible for disappearance of 500 passports', however, alleges that the three indictees have decided to address President of the Federation of Bosnia and Herzegovina (FBiH) Supreme Court, Amir Jaganjac, and members of the BiH Presidency in order to warn them of the alleged unnecessary stalling of the process. SD also alleges that the FBiH Prosecution will most likely press charges against Bakir Alispahic, former Republic of BiH Minister of Interior and the leading AID figure, on suspicion that he had issued over 500 passports to persons of African-Asian origin. Also, his responsibility has been requested in the case of disappearance of 8,000 passports, as well as for having spent 5 million KM on equipping police facilities.</p>
