DA interview: S. Halilovic critical of const. changes talks

Dnevni Avaz pg 5 'State Government should have another 3 Ministries as least' by H. Orahovac – In an interview to DA President of the SBiH Presidency **Safet Halilovic** stated that he recognizes in the initiative for the US Institute for Peace a danger that there is a wish to make the Constitution that would not serve as a civic act. Halilovic added that he grounds this claim on the fact that in all proposed drafts of changes citizens and the state itself were not constituted as sovereign. He added that ethnic groups only are sovereign. Asked as to why they participate in the constitutional changes talks since he is obviously dissatisfied with the course of the negotiations, Halilovic said: *'I do it because I expect that the USA and EU would give us firm guarantees that a proposed level of changes, I qualify them as cosmetic, represents just a beginning of the constitutional reforms and that would continue after the 2006 elections....'* Asked as to what they would do if they do not get these guarantees, Halilovic said: *'In that case SBiH will consider that there are no conditions for our serious participation in the constitutional changes talks.'*

HNZ Vice President Mate Bandur, who took part in the Washington negotiations, stated: <i>'I really do not know what Siljegovic wants to say since creating of a new Constitution actually guarantees equality and freedom to all constituent peoples and minorities on the whole BiH territory.'</i> He added that the RS is also a part of BiH. On the same issue SDA President Sulejman Tihic stated that reforms must take place because of the fact that politicians took it upon themselves. Tihic reminded that changes in the RS must take place since they have to accept what American and European advise to us.</p>

Hebibovic</u> carries an interview with Josip Merdzo (HDZ) who, among the other things, comments on the constitutional changes talks and he says: <i>'In spite of the fact that HDZ Central Board had very clear stands that BiH needs a new Constitution and that a two-entity option should be re-defined, nevertheless, they (presumably referring to HDZ representatives) took part in the process that only offered cosmetic changes of the current Constitution...We have to understand that in the context of the world politics we are just a small, meaningless crumb in the political plan and that each chance to open a dialogue on change of the Constitution is actually a big chance for us, that must not be neglected and remain unused.'</i> Talking about the situation in Mostar and implementation of the Mostar City Statute, Merdzo says: <i>'Unfortunately, the Statute was imposed by the High Representative and it is questionable as to how long this model would survive in this area.'</i> Merdzo added that he is still convinced that the HDZ proposal on the organization of Mostar was to the benefit of whole Mostar.</p>

ready for everything
just to stay on

Bugarin</u>, Nezavisne Novine pg 4, announced on cover 'Paddy Ashdown forbidden raises to judges' salaries' by <u>S. Lemo</u>, FENA – The High Representative, Paddy Ashdown, on Sunday issued the Decision that resolves the great disproportion between the salaries of judges and salaries of majority of BiH citizens. By the Decision, the salaries of judges in the entire country are harmonized and fixated at a level that will not be increased until the average net salary in BiH is estimated at 800 KM. Once this level has been achieved, the salaries of judges will depend on increasing the average net salary in the entire BiH, OHR said in a press release issued on Sunday. This will result in saving between five and seven million KM, which will be used for advancing the efficiency of BiH courts. The Council of Europe and the High Judicial and Prosecutorial Council (HJPC) have supported introduction of the law that would regulate the salaries of judges in this way. The High Representative issued the Decision because the existing laws on salaries of judges, which were adopted in 2000, have led to a great rise in salaries of judges and prosecutors at the annual basis, which was not followed by the relevant rate of economic growth.</p>
