**Reactions to  
PM Terzic's  
initiative  
on joint  
BiH/SiCG  
police team**

**Dnevni list**, pg 2, 'Prime Minister Terzic's initiative premature and hardly feasible', by Miso Relota, mentioned on cover – DL carries a couple of reactions to the initiative of the BiH Prime Minister **Adnan Terzic** on BiH and Serbia and Montenegro to establish a joint police team that would be tasked to arrest war crime suspects. **Ahmet Hadzipasic**, FBiH Prime Minister, finds the idea to be a good one but adds that its implementation and efficiency are disputable at the moment. *"The reality is that we have not harmonised principles in FBiH and BiH, so that regional connection that would be of formal nature but inefficient would make no sense. If not a single war crime suspect has been arrested in the RS so far, how can one expect another country to be more efficient if it is known that that country has the mortgage of having committed aggression on BiH"*, he adds. **Goran Radivojac**, RS Prime Minister's Spokesperson is of the view that establishment of such a team would be a complicated process, difficult to apply in practice since legislations of the countries in the region currently do not allow for such a form of activity. *"It is clear that the issue of arrest of war crime suspects is becoming a regional issue and that stronger regional cooperation on the matter is needed"*, Radivojac says.

## Political developments

**Greece supports  
BiH on its road  
to EU**

**BHTV** – Greek is one of the countries which strongly supports accession of Western Balkan countries to the EU. They have good economic and security reasons for this support. All EU countries have strict demands and conditions for BiH regarding its entry into the EU. A big progress has been made in terms of legislation, but now Brussels expects new steps. **Paddy Ashdown**, High Representative : “*Priority No. 1, 2, 3, 4, 5 now all have one name, and that is implementation of adopted laws.*” Countries which are geographically closer to Balkan (Italy, Austria, Greece) agree on this, but they also have other interests to heavily support BIH to become part of EU soon. Greece for example, besides the security, has also economic reasons for support. **Michail G. Koukakis**, Ambassador of Greece in BIH: “*After the war in former Yugoslavia, we were the only EU country which suffered a direct economic damage. Your roads to the EU countries and the traffic were generally cut off. We had to find other ways. But with the entry of your and other countries of South-Eastern Europe to EU, this will change.*” While Greece was head of the presidency of EU, they requested over 1 bill. Euro for supporting Western Balkans, but EU approved only 300 mill. **Damir Miljevic**, Analyst: “*If Bulgaria and Romania become EU members in 2007, the interest for entry of BIH, SCG, Croatia and Macedonia to the EU will be even bigger.*” Generally, EU wants BIH and other SE European countries to enter EU soon in order for Greece to be incorporated into a single geographic region with other EU countries.

<p><b>SDU demands urgent adoption of the Law on Local Self-management</b></p>	<p><b>Oslobodjenje</b> pg 4 'To adopt the Law on Local Self-management', <b>Dnevni Avaz</b> pg 8, <b>FENA</b> –</p> <p>The candidates of the Social Democratic Union (SDU) running for the offices in the eight municipalities of Canton Sarajevo at the forthcoming local elections have addressed a request to the Federation Parliament to adopt the Law on Local Self-government prior to establishing newly-elected municipal councils, which will be fully in accordance to the European Charter on Local Self-government. As SDU announced on Sunday, the failure to pass the relevant legislation would produce a realistic danger that the reformatory goals aimed at strengthening the competencies of local communities for their development will not be realized. In addition, it is also possible that the absence of relevant legislation would produce unnecessary conflicts between different levels of state administration and between the municipal bodies. Thus, the SDU candidates request from the High Representative to stimulate the relevant State bodies to pass not only this piece of legislation, but also the other laws and bylaws related to functioning of the bodies at the municipal level.</p>
