Oslobodjenje
int with
Alija Baksic,
Head of
Bulldozer
project

Oslobodjenje front pg splash and pgs 4 and 5 'Contributions to salaries maximally 55 %!' by D. Omeragic carries an interview with Head of the Bulldozer project **Alija Remzo Baksic**. Asked as to which is the most important demand from the last 50 proposals handed over the Chairman of the BiH Council of Ministers **Adnan Terzic** last week, Baksic says that the most important demand is the one on the ground of which a unified way of settling up contributions on salaries would be defined and that rate can be maximally 55 %. Baksic also said that the Bulldozer Commission partly succeeded because of the authority of High Representative **Paddy Ashdown** and international organizations, which gave their support, and he added: *'Now, we have to show that people at the local level are willing to make the system in which everything will be functioning properly and in which all obstacles for business will be removed...'*

DL int with
Arifovic:
'Pensions are
questionable
because of
VAT'

Dnevni List, front pg splash and pg 9
'Pensions are questionable because of
VAT', not signed – Carries an interview
with the Director of the FBiH Tax
Administration (FBiH TA), **Midhat Arifovic**,
in which he notes that the FBiH TA is
currently in a very confusing situation
since many of its employees, foremost
inspectors in charge of control of big
taxpayers, do not know whether they will
stay working with the FBiH TA or move to
the Indirect Taxation Administration
(ITA). Due to that situation, Arifovic
says that many criminal investigations
that cover financial illegalities worth
several millions of KMs have been
jeopardized since nobody is running the
investigations. Due to inspectors not
showing up at work, Arifovic also says
that there could be a lesser control of
taxpayers, which could result in decrease
of collection of public revenues, which
could subsequently lead to the situation
in which there will be not enough funds
for payment of pensions. *"I have been
warning the Finance Minister and the Prime
Minister (of the FBiH) about that, and if
it comes to that, the Government and
Finance Ministry will be responsible for
it, because the story about sales tax at
State level and VAT has not direct
connection with the pensioners. We have
been warning about the confusion that has
been going for three months, and if your
people are leaving or waiting to go, it is
natural that they are using the situation
to work as little as possible and not to
be at odds (with someone) because they
already see themselves in other
administration".*

<p>usinessmen warn VAT will cause inflation</p>	<p>RTRS – Businessmen warn that introduction of the VAT will cause inflation in BiH, warning that BiH authorities still have not developed anti-inflation policy. Mladen Micic, Chair of RS Chamber of Commerce, says that with the new law entities will have a right to deal with the social issues but will have no resources for it. The Indirect Taxation Administration claims that there will be no inflation. Damir Miljevic, Chair of RS Employers Association, says that countries that introduced VAT had a price control for the basic groceries in that way preventing inflation. Miljevic says that such measure will probably not be implemented in BiH and therefore high inflation should be expected by the end of the year.</p>

**Canton 7 PM
Coric on
privatization
of companies**

Vecernji List, pg 5, mentioned on front ‘Everything needs to be done to secure development of Aluminij’, by Zoran Kresic – Carries an interview with the Canton 7 Prime Minister, **Miroslav Coric**, in which he opposes decisions of the FBiH Government to take over several state-owned companies from the competence of the canton. *“I really cannot understand moves of the FBiH Government and Privatization Agency given their bad experiences in privatization of companies. I will personally request that companies such as HEPOK, Mostar Tobacco Factory and Hotel Neum be returned to the cantonal (privatization) agency”,* says PM Coric. Questioned whether such cases are motivated by interests of a group of people or certain lobbies, and whether such scenario is reminiscent of the ‘Aluminij’ case, PM Coric says: *“It is very hard to claim that with full certainty. When you break down the reasons, one has to logically conclude it is about protection of interest of one people, lobby and individuals. I do not see a fourth significant reason”.* On ‘Aluminij’, PM Coric says: *“There are certain lobbies and people in this country that divide everything into ours and theirs, which I oppose. Everything needs to be done to secure development to Aluminij”.*

<p>NN: OHR denies involvement of its staff in corruption scandal</p>	<p>Nezavisne Novine pg 2 'They are dissatisfied with the investigation on case of corruption at OHR' <u>by D. R.</u> – OHR has denied the involvement of one of its high-ranking employees in a corruption scandal after it conducted an internal investigation, as Transparency International has confirmed. A source close to top of OHR has stated: <i>"The investigation OHR conducted showed these claims were not correct. This was about a denunciation of Transparency International in which it was stated that, allegedly, the employee, whose name I cannot reveal for understandable reasons, has threatened the leadership of a public institution in RS by saying that Paddy Ashdown, the High Representative, would remove them all if they fail to give back the job to a person they have fired earlier'.</i> Boris Divjak, the Transparency International Director, has confirmed TI has received a letter from OHR, which explained in two sentences that the employee couldn't be held responsible of this. Divjak said he wanted to know how and through what kind of an investigation had OHR reached such a conclusion. OHR refused to comment on this case. OHR Banja Luka Spokesperson Ljiljana Radetic said OHR never comments on its correspondence.</p>

Sinanovic</u> – DA carries a short interview with SDU Vice President Sejfudin Tokic who says that due to obstruction of Serb national parties, which act in cooperation with Belgrade, the BiH's way towards the European integration is completely stopped and the only way that BiH strikes back is consensus of political parties that want European future of BiH. Dnevni Avaz pg 8 'SDA Caucus will suggesting a decision on temporary financing of Mostar' by F. Vele – The former Mostar mayor and the chair of SDA branch, **Hamdija Jahic**, sent a letter to HR **Paddy Ashdown**, following the letter sent by the Mostar Mayor, **Ljubo Beslic**, to Ashdown which accuses Party for BiH and SDA for 'paralyzing' Mostar, In the letter, Jahic warns that Beslic's stands on changes to the Mostar Statute and radical delegates in Mostar City Council are nothing but a trial to please certain associations within 'his own allies' aimed at postponing the decision on single budget. Jahic adds that the reason SDA delegates sustained the vote was the lack of structure of budgetary users. He concludes that SDA Club will propose the decision on temporary financing at the next session of the Council.
