FBiH HoR returns draft law on privatization to the Government / FBiH HoR criticizes the Government's stance toward the HoR

Hayat, RHB, PINK, FTV, Nezavisne Novine pg 2 'The Law on Privatisation sent back for additional development' by R. C., **Dnevni Avaz** pg 9 'No support to Government to sell companies on its own' by A.Hadziarapovic, **Oslobodjenje** pg 3 'Cantons have to harmonize laws with the Federation' by S.Se— At the session of FBiH House of Representatives in Sarajevo on Tuesday, FBiH Prime Minister **Ahmed Hadzipasic** decided to withdraw the draft law on the privatization because it caused major dispute among delegates. Reporter ironically noted that there was nothing new in relations between FBiH Parliament and FBiH Government noting that the proposed plan on the work of the Government for 2006 still hasn't been adopted by FBiH HoR, while FBiH House of Peoples adopted it. FBiH HoR delegate **Mirnes Ajanovic** stated that it is the case in all normal and democratic countries that after the proposed work plan is not adopted the Government is dismissed. FBiH HoR delegate **Slavisa Sucur** stated that this Government from the beginning of its work *"showed resentment toward the Parliament as if it did not need it. Now, they disregard all our conclusions or suggestions"*. HDZ 1990' **Rudo Vidovic** also stated that Government in normal countries is dismissed after its plan is not adopted, adding: *"Delegates from HDZ 1990 have decided not to launch initiative for a confidence vote if the Government analyses the importance of losing the support of the delegates."* **Oslobodjenje** pg 2 'Minister Heco unlawfully withdrawn the Law from the parliamentary procedure' by S.Se – Article carries that FBiH Energetic and Mining Minister **Vahid Heco** has withdrawn the amendments to the Law on Privatization unlawfully.

<p>FBiH HoR rejects amendments to FBiH Constitution referring to local-government</p>	<p>BHT1- FBiH HoR rejected the amendments to the FBiH Constitution referring to local self-government. Most of the representatives of Croat parties voted against those amendments, because they deem these constitutional amendments would only harm Croat people in BiH. <i>"Cantonal constitutions say clearly that Cantons are authorized in the field of local self-government. Those [proposed] amendments would not distribute the authority, but strip Cantons of their authority and transfer it to the FBiH"</i>, HDZ 1990' Rudo Vidovic said. Media commented that rejected amendments are obligatory for BiH, because on the occasion of the admission into the Council of Europe BiH promised to embody the principles of the European Charter, which refer to the sector of local self-government. <i>"I think that we once again showed ourselves to be irresponsible when it comes to our obligations towards the Council of Europe and the United Nations. This is, above all, a very bad message from BiH"</i>, stressed FBiH HoR delegate Slavisa Sucur. Only few moments after they rejected the constitutional amendments on local self-government, representatives in the FBiH HoR adopted the Law on local self-government. After FBiH House of Peoples adopts this law as well, Cantons will be obligated to harmonize their laws with the FBiH Law on local self-government. RHB, PINK, FTV, Dnevni Avaz pg 9 'No support to Government to sell companies on its own' by A.Hadziarapovic, Oslobodjenje pg 3 'Cantons have to harmonize laws with the Federation' by S.Se – also covered.</p>

<p>RSNA passes laws on usurpation and privatization of state apartments / RSNA passes RS MoI's report on audit in RS public companies</p>	<p>RTRS, PINK, BHT 1, Glas Srpske pg 2 'They got stuck at transfer of powers' by <u>G. Dakic and Z. Markovic</u>, Dnevni Avaz pg 8 'Privatization of apartments as of June 30 2007' by <u>Srna</u>– RS National Assembly deputies Tuesday discussed the effects of transferring authority from RS to the state level. Report submitted by RS Government stressed that BAM 556 million will be used by joint institutions out of which RS will provide 30%. RS Government also stresses that certain decisions on transfer of authority were rather sensitive and made upon pressure from international community thus deciding to institutionalise the analysis of regulatory use. RS NA Board for economy and finance failed to adopt the report since it is not clear on how much RS has gained or lost in these processes. Milan Lazic from SRS RS is of the view that RS is losing its independence with each and every transfer of authority. Slobodan Popovic from SDP reminds that transfer of authority is being carried out, but old institutions are not becoming obsolete. Muharem Murselovic from SzBIH is pleased with the transfer of authority, stressing that every transfer of authority was regarded as negative in RS NA. RS MP's adopted a draft law on transfer of property rights to units of local self-governance as well as law on usurpation as part of the law on privatisation of state apartments. RTRS late news – RS MP's adopted Report on actions RS MoI undertook regarding audit reports carried out in 2003 and 2004 in public companies in RS. Nezavisne Novine pg 8 'F BiH Government
and parliament are throwing parties before
elections' by R. Cengic – Opposition
delegate from Livno and Deputy President
of HSS **Ante Colak** says F BiH Government
and Parliament are turning their work into
dance parties and are adopting
unsustainable pre-election laws. He noted
that the greatest problem in BiH is the
fact people are not appointed to positions
because of their competence but instead of
nationality, adding people, not laws, are
on power in this state. He commented on
the split in HDZ saying this might leave
consequences on processes in BIH because
HDZ is a party on power and it has signed
the agreement on constitutional changes,
yet it has no delegate at the state level,
therefore it cannot fulfil promises given
to the international community. Colak
stressed: *'Many who gave their signatures
during the talks on constitutional changes
had been actually working against the
adoption of these. It was known that
Dragan Covic (HDZ) has no delegates at the
parliament and, in this context, anyone
could have signed these amendments. The
other person who has no delegates is
professor **Miljenko Brkic** (HNZ). Had I
taken such an obligation, I would have
ensured it is respected'.*"

According to BHT reporter, most of the experts deem that BiH authorities are not working in the best interest of BiH citizens. Therefore, civilian sector has already taken certain steps; they urged BiH authorities and Election Commission to rationally spend taxpayers' money. Majda Behram-Stojanov, from the Civic Initiatives Centre, stated:</p> <p><i>"We will request once again that BiH Election Commission makes an official statement, confirming that the general elections will not be repeated... Because those eight or nine millions of KM must not be spent on yet another elections, only because of somebody's irresponsibility. That money could be invested in some other programs, social programs for example."</i></p>
