Political developments	
BiH HoR discusses Annex 7 implementation	<p>BHTV 1 – BiH House of Representatives at the session held on Thursday discussed BiH strategy for the implementation of Annex 7 of DPA. However, it decided to task authorised commission to sum up discussion and present conclusions at the next session, which would be incorporated in the strategy document. Strategy prepared by BH Ministry for Human Rights and Refugees is the first strategic document at the level of BiH on implementation of Annex 7. Despite making objections to this strategy, representatives did endorse its importance. Sefik Dzaferovic, Chairman of BH House of Representatives said that the ‘importance of this strategy is that, even though it was draft 8 years after the Dayton Peace Agreement, prevented trials of certain circles to declare implementation of Annex 7 finished already even though at least half of million of people still want to return to their homes without possibility to do so.’ BH Minister for Human Rights and Refugees Mirsad Kebo said: ‘This strategy or the action plan consisted of all those activities we need to do, not only this ministry, but also institutions of the state, entities and municipalities in next 4 years.’</p> <p>Oslobodjenje front page, pg. 7 ‘Nationalism and lies again in the Parliament’, Dnevni Avaz pg. 4 ‘Fierce polemics between Durakovic and SDA, HDZ deputies’ – BiH is entering a final phase of its ethnic division and Sarajevo is not as multiethnic as some claim, said Nikola Spiric, an SNSD deputy, starting a fierce discussion on the wartime developments during the House session. The strategy of return was just a cause for a new nationalistic debate, warned Nijaz Durakovic. Representatives of national political parties and the opposition repeated their well-known stands related to who had played what role in the BiH war.</p>
SDS delegates to RSNA	<p>BHTV 1, RTRS, Nezavisne Novine, page 5, ‘Nikolic and Djukanovic new SDS MP’s’, Oslobodjenje pg. 6, Dnevni List page 6, <u>by D.L.</u> – Following the decision by High Representative to dismiss two SDS representatives in the RS National Assembly, BiH Election Commission verified these mandates for two SDS delegates from their list of candidates for RS NA. Public Affairs Office for BH EC confirmed that mandates were given to Cvjetin Nikolic and Rodoljub Djukanovic.</p>

OHR approved appointment of HNC Ministers	<p>FTV – OHR has approved the candidacy of all the three candidates for minister positions in Herzegovina-Neretva Canton Government after they completed the vetting procedure. SDA appointed Mumin Isic for Administration of Justice Minister position; HDZ appointed Tomislav Martinovic and Jago Musa for Ministers of Interior and Education. After the HNC Assembly confirms their appointment, Isic, Martinovic and Musa will assume their duties in the mentioned ministries.</p> <p>Vecernji List page 3, <u>by T.K.</u>, “Candidates for ministers approved”, Dnevni List page 12, <u>by Vesna Leto</u>, “Martinovic, Musa and Isic new Ministers in HNC Government and Slobodna Dalmacija last page, <u>by M. Landeka</u>, “Isic, Musa and Martinovic are becoming Ministers” also reported that the Office of the High Representative approved the nominated candidates for vacant ministerial positions in the Government of the Herzegovina-Neretva Canton. SD says that the spokesperson of OHR South, Avis Benes, confirmed this information. VL says that High Representative Paddy Ashdown stated this decision in the letter sent to the Prime Minister of the HNC, Miroslav Coric.</p>
FBiH HoP: Serb seats still vacant	<p>Glas Srpske, cover page story, ‘Serbs beyond the limit’ – Nine months after the general elections the number of Serb delegates at the House of Peoples of the BH Federation Parliament remains beyond the limit: only 10 out of 17 seats intended for Serb delegates have been filled.</p>
RS Socialist Party on governing coalition	<p>RTRS, Oslobođenje pg. 3 ‘RS Government to fall in Septemehr’ – Socialists’ Party believes that opposition parties would vote for proclaiming current RS authorities as untrustworthy by September. Party also estimates certain PDP and SDS delegates disappointed with the work of RS Prime Minister Dragan Mikerevic and his cabinet would join this initiative. Vice President of Socialist Party Miroslav Mikes claims that RS falls apart from inside with silent approval of Coalition at power.</p>
Removed BH officials critical of HiRep decisions	<p>Glas Srpske, cover page story, ‘Humiliated and without rights’ – The content of the draft letter, which all the officials from BiH, who were removed from the position by HiRep, intend to send to Doris Pack, President of the Board for SouthEast Europe, will contain the following bits and pieces: “We are tried in secrecy and we have no right to defend ourselves. The verdicts – that are humiliating and deprive us of basic human rights – are announced in public. The justice we have encountered resulted from “an absolute authority, who does not suit anybody.” They will seek from Pack to persist in her requests and to inform Council of Europe of their cases.</p>

<p>DL says joining of two Mostar Grammar Schools is test of HDZ sincerity</p>	<p>Dnevni List (front and page 8, by <u>Zvonimir Jukic</u>, "Mostar Grammar School – test of sincerity for HDZ BiH") – says that its source within the IC told the daily a few days ago that the plan of integration of two grammar schools in Mostar (one on the "Croat" and one of the "Bosniak" side) will be a sort of a test for the HDZ i.e. a test that will show the HDZ's sincerity in the whole process of integration of Mostar. Saying that in preparatory talks about the merging of the two schools, representatives of the HDZ BiH were reluctant about the solution to the issue, the author says if the HDZ BiH accepts to merge the two schools, that would be an additional argument for the IC to exert pressure on the SDA so the party finally accepts the unification of Mostar. Otherwise, if the HDZ BiH does not accept the merger and after the SDA left the Mostar Commission, that would turn the process backwards and strengthen the SDA position i.e. opposition to full integration of Mostar through creation of one municipality. Finally, the author says the whole issue of unification of Mostar and merging of the schools are evidence that many things in the SDA-HDZ rapport do not work properly, which will make the OHR's claims on reformed national parties look silly and naïve.</p> <p>Slobodna Dalmacija (page 16, by <u>Darko Juka</u>, "Surplus of cadre will not be immediately sent on street") carries the President of HDZ Cantonal Board in Canton 7 and member of Mostar Commission, Josip Merdzo, as saying that details pertaining to joining of the two schools will be made public by the new Minister of Education in Canton 7, Jago Musa. "It is clear that certain integrative processes are imminent, and the Grammar School can be looked at in the context of unification of Mostar. Therefore, when a new City Council has been formed, then it will define a composition of the school board, thus the Grammar School should be a part of schooling institutions in our canton, which fits into legal provisions that other schools fit into", says Merdzo.</p>

**CRO press on
Mostar
restructuring**

Dnevni List (front and page 3, by I. Glibusic, "Last warning to ruling parties in HNC") – reports that withdrawal of SDA and its close associates from the Mostar Commission has brought the whole process of reorganization of Mostar into question adding that due to the critical situation, Ambassadors of EU countries and candidates for full EU membership will be visiting Mostar on Monday to meet the Commission, Mayor and Deputy Mayor of Mostar and representatives of cantonal authorities. According to DL's source, additional pressure will be exerted on political parties that participate in the authority and which obstruct the normalization of situation in Mostar. Furthermore, DL says despite the boycott of the work of the Mostar Commission, there will be no sanctions i.e. removals of officials at the cantonal level adding that the only thing that could happen is that parties that are still interested in the work of the Commission remain working, whilst the opponents stay aside.

Dnevni List (page 7, by Zvonimir Jukic, "Will Radmilo Andric remain in Commission?") – reports that the Chair of the 15th session of the Mostar Commission, Radmilo Braca Andric, adjourned the session after Bakir Krpo, a member of the Commission, stated he was freezing his status in the Commission. In a letter that Andric sent to principals of Mostar and international institutions, dated on July 16, Andric said the 15th session was not attended by a single representative of the Bosniak people so he "did not have a choice but to adjourn the session". In this context, DL says Krpo stated at the session that he, being a Bosniak, did not want participate in the work of the Commission without other two members from the line of the Bosniak people and that he was going to freeze his status until there was an appropriate filling of the Commission. Andric further stated in the letter that because of those, as well as other reasons he adjourned the session and that he found his presence unnecessary. The author interprets Andric's final words as an announcement of him leaving the Commission too. In that context, the author says information coming from part of SDA that opposes the current division of Mostar into six municipalities, Andric could in the next few days state that he is leaving the Commission. The author's final thought says the fact the Commission has been left by the Bosniak members (Music, Sadovic and Krpo) clearly shows that "the Ashdown's proposal suffered a fiasco" stressing that each member of the Commission received 4.500 KMs of the taxpayers' money for nothing.

Slobodna Dalmacija (page 16, by Darko Juka, "Surplus of cadre will not be immediately sent on street") – an interview with the President of HDZ Cantonal Board in Canton 7 and member of Mostar Commission, Josip Merdzo, in which he address the problem of possible surplus of workers in case of a new organizational set-up of Mostar taking place. "The municipal offices currently existing on the ground will not be shut down, but will be transferred to the competence of the city administration. So the people should not be afraid. It is certain that a plan of taking care of employees of municipalities will be made because nobody will be sent on the street that easy. But certain steps will be taken at the higher level, meaning in offices of Heads of Municipalities, Presidents of Municipal Councils, bunch of Councilors and similar, because in that case there will not be six but one and there will be reductions there", says Merdzo.

<p>Barisa Colak on relations between HDZ and SDA</p>	<p>Vecernji List (front page, "We are dissatisfied with results in authority" and page 2, "HDZ is not satisfied with relations in authority with SDA", by <u>Zoran Kresic</u>) carries that Minister of Security in the BiH Council of Ministers Barisa Colak judged as successful talks that the HDZ delegation had with high-ranked SDA officials, led by SDA President Sulejman Tihic, on the reform of dense and fiscal system. Colak concluded that they reached a considerable degree of consent with SDA when the defense reform is in question and added: "However, there are differences. We go from supposition on the reform of the defense at the state and not the entity level. Also, our stand is that the national components of the Army have to preserve some characteristics to a certain degree." Colak also said that SDA and HDZ delegations expressed dissatisfaction over mutual relations that the two sides have had at all levels so far. Colak also said that they are not satisfied with total results in the authority.</p>
<p>Vjesnik: "France and Germany do not want new mandate for Ashdown"</p>	<p>Vjesnik (page 14) carries an article from the Austrian "APA" which reads "it is obvious France and Germany want to prevent extension to mandate of the British Paddy Ashdown. Nine months before expiration of deadline of the High Representative for BiH, Paddy Ashdown, there are more and more criticism on account of his style of administration", reads the article. Vjesnik reads that in an interview with "APA", a German diplomat made a critical remark that Ashdown, apart from members of the US Embassy in BiH, did not include members of the Embassies of EU countries into the decision-making. Vjesnik adds that the criticism also comes from local politicians. Secretary General of PDP, Nevenka Trifkovic, asked the BiH Foreign Minister, Mladen Ivanic, to review the justification of Ashdown's decisions because it often occurred that "the OHR forces the Republika Srpska Parliament to adopt certain laws, without leaving the MPs a possibility to change a single comma".</p>
<p>ESI report on HR powers</p>	<p>Slobodna Bosna pgs. 22-23 'Bosnian politicians congratulated me saying they are afraid to do it publicly' and BH Dani pg. 12 'Gerald Knaus: The time has come for reducing Ashdown's power' – Both papers interviewed Gerald Knaus, a co-author of recently published European Stability Initiative institute's report on the powers of the Office of the High Representatives in BiH. Knaus claims that there are no mechanisms of control that should force current HR Paddy Ashdown to be more cautious or present more evidence when he makes important decisions. "How can we have a partnership relations, or at least equality between OHR and elected BiH officials if OHR is allowed to dismiss any elected politician, any judge, any police officer, any municipal head whenever it wants and – just like that," said Knaus referring to a lack of possibility for the removed officials to lodge complaint on their removal.</p> <p>On pages 24-25 'Doris Pack: Bosnians in fear of Ashdown must not say a word', Slobodna Bosna reprints an article on the HR powers published in the latest issue of the Austrian magazine Profil.</p>

As time for presentation of evidences against Slobodan Milosevic runs at the end of this year, Prosecution announced it would focus on proving Milosevic’s involvement in BiH conflict. In an interview to Associated Press, Del Ponte said she was sure that key evidences would result in ruling guilty for genocide. Economic, financial issues

<p>5c corridor construction</p>	<p>BHTV 1, RTRS, FTV, Oslobodjenje pg. 6 'BOSMAL given a 30-day deadline to secure 300 million euros', Dnevni Avaz pg. 4 'BiH CoM accepted preliminary BOSMAL's offer', Dnevni List page 4, signed by <u>De.L.</u>, "BiH Parliament informed on preparations for Corridor Vc construction"- Information prepared by Council of Ministers on 5C corridor, which was presented at the Thursday's session of the BiH House of Representatives, says that the CoM responded to Bosmal's self-initiated offer by outlining precise conditions, which must be met to start negotiating on awarding concession. Branko Dokic, BH Minister for Transport and Communications said this was one of the strategic issues in the BiH development. Council of Ministers in principal adopted initiative of Bosmal company, with whom it expects to sign the concession contract if Bosmal accepts all obligations. '[Bosmal] offered to build motorway in its full profile, all 330 km within 5 years, asked for 4 months of deadline for checking their financial credibility and feasibility. During that time, they would secure 300 million Euros needed to draft projects and studies on that motorway' said Dokic. The House adopted CoM's information on activities conducted so far in regard to 5C corridor.</p> <p>FTV – The sources claim that allowing the Croatia to participate the construction of the 5C corridor is actually a diplomatic trade for using the Ploce Port.</p> <p>Bosmal representatives have responded to the Croatian Government's request on announcing the international tender, saying that they are prepared to fulfil all the obligations that were stated in the contract, and that there's no need for Croatian companies involvement in the project. Executive Director of Bosmal stated that 'we will do this, we will provide the necessary funds maybe even before the date we have determined: 5 billion KM, 10 billion KM or even more.' Dragan Covic has welcomed the Croatian Government's proposal. According to BiH Minister for Transport and Communications Branko Dokic, nothing has changed: the CoM is willing to put all the efforts for conducting all the procedurals requests that would lead to 5C corridor construction. CoM will not announce the tender if Bosmal fulfils all the obligations in the contract.</p> <p>FTV – Croatian media are very interested in the construction of the 5C corridor and possible involvement of the Croatian companies in the project. According to the Croatian officials, Croatia has to offer many companies that would be able to participate the construction. Croatian media cite that BiH will never be able to build a corridor on their own, since they have no money to do anything. It has also been mentioned that BiH politicians are alleviating the strong negative attitude of the BiH media on the issue.</p> <p>In an interview with Dnevni Avaz pg. 5, mentioned on the front page, BiH Foreign Minister Mladen Ivanic assessed the BOSMAL offer as correct saying the company should therefore be given a chance to complete the job.</p> <p>Ljiljan pg. 7 Editorial by Editor-in-Chief <u>Sejo Omeragic</u> 'Future or garbage depot' – "The 5c corridor is the question of all questions for this state. This job simply must be done by the domestic companies, from Sarajevo over Banja Luka to Mostar. This job is finally a matter for BiH and its Bosniaks, Croats and Serbs," says Omeragic.</p> <p>Ljiljan pgs 18-22 'Sulong: Malaysia will be investor in your project' – Interview with Zakaria Sulong, the Malaysian Ambassador to BiH. "We came to Sarajevo with a message and an offer – Gentlemen, there is no country in the world that is more interested in corridor construction than Croatia. We are interested that the highway is constructed as soon as possible and in a quality manner. If you can do it alone, Croatia will not participate," said Racan.</p> <p>In another article on the issue on pgs. 18-19 'BOSMAL or Croatia, that is a question', Dani Editor-in-Chief <u>Senad Pecanin</u> presents strengths and weaknesses of the BOSMAL's and Croatian offers for 5c corridor construction.</p>

Asked whether there is a wish to resolve the social problems, which appear in collieries and thermo-electric power plants in Bosnia, Zigic says that there is no wish to resolve the social problems in this way. Asked whether he expects that the solution which will satisfy all sides will be found, Zigic says: "Absolutely yes. I will be willing to spend as much time as necessary with representatives of Debis and Elektroprivreda BiH in order that they find the solution which will make possible the delivery of electricity, that is, purchase of electricity, so that the production of Aluminij, which is a big exporter and which considerably improves budgets of the Federation of BiH, is not brought into question"</p>
