<p>Herceg-Bosna wartime documentation still missing</p>	<p>Herceg Bosna Radio – FBiH authorities do not know where the war archive of Herceg Bosna is and the only thing they can do is keep looking for it, stated FBiH Minister of Justice Borjana Kristo. We do not know where the documents are, if they exist at all, stated Kristo for Banja Luka's Nezavisne Novine. ICTY sent a request earlier for documentation of Herceg Bosna from the war period. Some local media reported that there is a warning in the request that the lack of cooperation with ICTY might lead to serious consequences and sanctions against some senior BiH Croat officials. Although the request from ICTY was formally sent to FBiH authorities it is clear that it refers just to Croat officials in BiH. Croat Liaison Officer with ICTY Goran Mihaljevic said that the employees of his office would contact all wartime officials of Herceg Bosna in order to find the documents Carla Del Ponte wants. Media in Sarajevo published that current officials of HDZ declined the possibility that some of them do not want to cooperate with ICTY in order to damage the defence of Jadranko Prlic. Minister Kristo claims that individuals who know something about the missing documentation were not available so far due to vacation season.</p> <p>BHTV – Special division for war crimes of BiH Court will request for all documentation related to wartime Herceg Bosna even before the official start of its operations. Some information say that the documents about HVO and HDZ are now in Zagreb. Croat Officer for collaboration with ICTY talked on Thursday with Mariofil Ljubic. Former senior official of HDZ: <i>"And regarding the information he needs, I could not help a lot. In the period, which he is interested in, I was not holding any important office (at the local level). I was an official at the level of BiH at the time. I think that relevant people from this period can help him, those who were on high-ranked positions in HDZ or Herceg Bosna. I do not think it is a secret documentation, on contrary, it can help."</i> Officer for collaboration with ICTY will inform ICTY tomorrow on his talks with Ljubic. Goran Mihaljevic, Officer for collaboration with ICTY: <i>"I will have a meeting with the chief of the office for collaboration with ICTY, Mr. Van Heck, and I will inform him about all my activities and talks."</i> Goran Mihaljevic also talked to Milo Kudic, former Secretary of Government of Herzeg-Bosna, but the details were not specified. Highest officials of Croatia will meet ICTY's Prosecutors at the beginning of September.</p> <p>Oslobodjenje pg 4 'We will look for documentation in Croatia as well', Dnevni Avaz pg 2, Nezavisne Novine, cover and pg. 5 'We will ask for entire war documentation of HDZ, HVO and Herzeg-Bosnia from Croatia' by Hina – BiH Croat liaison officer with the Hague Tribunal Goran Mihaljevic on Thursday announced that they will address Croatian authorities asking from it to help in locating the documentation on wartime activities of HDZ, HVO and former Herzeg-Bosnia.</p>

<p>SB: Covic, Colak, Lozancic in panic</p>	<p>Slobodna Bosna pgs 17-18 'Covic, Colak, Lozancic in panic look for 'lost' Herceg Bosna documents because they are facing removal!' by <u>Suzana Mijatovic</u> – SB writes that <i>"the real diplomatic war is currently being led between Chief ICTY Prosecutor Carla Del Ponte and HDZ BiH leadership over documents from the archive of former parastate Herceg Bosna and its institutions."</i> Author reminds that ICTY Prosecution sent 6 letters in the past two years to HDZ leadership requesting the same, however <i>"the latest letter is significantly different from the previous ones in its intonation and warnings that the lack of cooperation of current HDZ leadership with the Hague Prosecution could be strongly sanctioned."</i> Apparently, Del Ponte asked HR Paddy Ashdown for help telling him about lack of cooperation, and subsequently wrote to officials in question that lack of cooperation <i>"could result with a number of measures, including... dismissal of officials."</i> SB writes that HDZ took this warning very seriously, especially Dragan Covic, Barisa Colak and Niko Lozancic who met this meet to discuss their further actions. However, author also says that most probably current HDZ BiH leadership has no knowledge where is the archive. She claims that the majority of key documents were in the main HVO [Croat Defence Council] HQ in Grude under control of Mate Boban, which later most probably ended up in main logistic center of HVO in Grude, where again the majority of the archive went missing. As for the other part of the documents, SB speculates it was under control of SNS [National Security Service] in 1998 and some less important documents were transferred to Central archive in Zagreb .</p>
<p>BiH Court funding</p>	<p>BHTV – Approximately 16 million euro raised and intended for first two years of work of BiH Court's division for war crimes are missing. OHR which is supervising establishment of this division claims that the money is operational, while BiH Ministry of Justice and Court of BiH claim the opposite. OHR says that the money will be sent to BiH in instalments. First tranche is already in BIH, but Ministry of Justice BIH and Court of BiH do not know this. Oleg Milisic, OHR Spokesman: <i>"At this moment the money is being administered by the administrative division of Court of BiH which is already operational and it is being invested in reconstruction of a facility which will be used for war crimes."</i> Slobodan Kovac, Minister of Justice BIH: <i>"This money has not been transferred yet. When the register office start with work, the office will handle this money, and then it will be operational"</i>. Martin Raguz, President of Court of BIH: <i>"This money will probably be administered by the register office. So we can not say when the money will be operational."</i></p>

<p>VL: Instead to The Hague , Dr. Cibo runs for director</p>	<p>Vecernji List, pg 5 ‘Instead to The Hague, Dr. Cibo runs for director’, mentioned on front, mentioned on front, by <u>mj</u> – the daily claims to be in possession of a letter that the then Deputy ICTY Prosecutor, Graham M. Blewitt, had sent to the then investigative judge of the Mostar Cantonal Court, Vjekoslav Lovric, in which Blewitt notes that the Cantonal Prosecution in Mostar can launch an investigation against a former (war-time) Mayor of Konjic, Jablanica and Prozor, Safet Cibo, who was installed, according to VL, by the late Alija Izetbegovic, in March of 1993. VL notes that the letter, which dates back to the year 2000, places the case against Cibo under the ‘A’ category. VL argues that instead of ending up in The Hague, Dr. Cibo is now running to become the Director of the Kosevo Clinic in Sarajevo.</p>

Apparently, new evidences indicate that former Bosniak Police officers, AID employees (former Bosniak intelligence) and Islamic militants in BiH are involved in organization of the assassination. According to data of the intelligence community, top suspects for planting of an explosive device under Leutar's car are members of the so-called 'Igman group', namely Mounir Hanouf, Muhammad Ebu Gazalij and Bas Murat. VL claims that the troika were arrested one month after the assassination, however they were released despite being in possession of devices used for terrorist acts and being spotted not far from the crime scene. VL also notes that the Italian Interpol has issued arrest warrants after the troika because of terrorist activities. Finally, VL notes it is going to be interesting to investigate into role of former senior Police official, Faik Lusija, and (Interior) Minister, Mehmed Zilic.</p>
<p>SB on alleged dispute between British and US diplomats in BiH over planned removal of Miletic</p>	<p>Slobodna Bosna cover page 'The first big CLASH between Americans and British in BiH', pgs 6-7 'US Ambassadors Bond and Hays, prosecutor McNair prevented Ashdown from replacing Zlatko Miletic?!' by S.B. – SB claims it learns from 'diplomatic circles in BiH' that about ten days ago the High Representative Paddy Ashdown intended to dismiss FBiH Police Director Zlatko Miletic, which caused a quarrel between US and British politicians. Apparently <i>"Ashdown found the reason for the dismissals in information leaking to media from Police Administration."</i> SB further says that this was strongly opposed by both Principal Deputy HR Donald Hays and Senior Deputy HR Bernard Fassier, <i>"both believing that FBiH Police Director does his job well,"</i> as well as international prosecutors working in BiH Prosecution who threatened to resign in case of Miletic's removal. <i>"However, nothing could disturb Ashdown in his intention, until outgoing US Ambassador to BiH Clifford Bond interfered in the case. According to our sources, Bond wrote to Ashdown in non diplomatic manner warning him of terrifying consequences that could be a result of Zlatko Miletic's dismissal,"</i> article reads. It concludes that according to the OHR source, only after these disputes HR decided to give up on his plan.</p>

GS cover page story on participation of Serb refugees in privatisation process in FBiH

Glas Srpske, cover page story 'Politics is tailoring justice' by D. V. M. – The article reads that approximately 24,000 Serb refugees from the Federation in BiH have been deprived of their right to certificates. *'The law gives them the rights to privatisation certificates and the Agency deprives them of this right. It seems as if the Agency is above the laws, even above OHR, which has no power, or perhaps will, to resolve this issue'*, the article reads. It explains that these people have registered for vouchers in RS and at the same time got the right to privatisation certificates in the Federation of BiH, after which they have renounced the vouchers in order to be able to privatise apartments by using certificates. The Agency blocked their certificates, explaining that they have wanted to exercise their rights both in RS and the Federation of BiH. *'Lower employees of OHR are participating in talks and they agree certificates must be unblocked. Nevertheless, they point out they have no authorisation to resolve this issue'*, **Dragan Cerovac**, an employee of RS Privatisation Agency has stated.

citizens get
organs in
India**

Vecernji List, front and pg 3 'Smuggled kidneys in BiH patients', by Zoran Kresic – claims that a dozen or so BiH citizens got new organs in India, mostly kidneys and livers, after paying some 70.000 KMs for the transplantations. According to information at VL's disposal, a group from Sarajevo , led by an influential person from Sandzak, organizes trips to India , charging between 25.000 and 35.000 KMs per person. Apparently, everything is completed in ten days time, from the departure to India to the return back to BiH, which increases the health risk. VL notes that people resort to trips to India because they have to wait for months for transplantations in BiH.

Political developments

**DL on
systematisation
of jobs in
Mostar City
administration**

Dnevni List, pg 7 'Workers stay jobless and without social programmes', mentioned on front, by Zvonimir Jukic – claims that according to the systematisation of jobs in the City administration of Mostar, of 700 current employees, 390 of them will keep the jobs. However, the author claims that the process of systematisation has revealed all shortcomings of the Mostar authorities, claiming that he has learned from its source in the City administration that Mayor and Deputy Mayor of Mostar, **Hamdija Jahic** and **Ljubo Beslic** respectively, have not made an analysis of employees in the City administration i.e. they do not have a clear picture about professionals at their disposal.

Furthermore, the author claims that the systematisation was not carried out together with the Unions of employees of the City administration, although the OHR had promised the Union would be involved in the process. On top of this, the author says the surplus workers will be left on their own because there are no social packages to take care of them. Finally, the author claims that Mostar principals have sent the employees on a collective annual leave in early August in order to fill positions of five heads of departments (in the City administration) away from the public eye, thus placing the City administration under control before the local elections. Apparently, the OHR reacted to this, requesting that nothing can be done outside the law.

Inset entitled 'Filling in harmony with law' carries an OHR spokesperson, **Sanela Tunovic**, as saying that the filling of positions in the City administration will have to be done in accordance with the Law on state appointments.

<p>Proposals of re-organization of BiH, reactions</p>	<p>Dnevni List, pg 9 'All three peoples decide about future of BiH', by <u>Indira Tabucic</u> – carries reactions to the SDP's proposal of organization of BiH, which would be organized as a republic with municipalities as units of local self-government and regions as units of regional self-government. According to President of SNSD's Executive Board, Nebojsa Radmanovic, the SNSD has decided not to comment on "individual proposals". However, Radmanovic says the issue must be solved through agreement of relevant political and expert representatives from all three peoples in BiH. Radmanovic notes it is counterproductive to raise such issues during the pre-election campaign. DL also carries the President of SDU, Miro Lazovic, as saying that a political goal of the SDU is to have BiH organized as a single state with municipalities, in which BiH would be integrated on basis of economic regions, and Hasan Muratovic, a senior SDA official, who recently told DL that BiH should have two levels of authority – either a state with municipalities or state with six regions.</p>

According to VL, the troops will be paid 4.000 KMs a month per soldier. The daily learns from the BiH Council of Ministers that details about sending the troops to Iraq are not determined yet, which leads the daily to say that the departure to Iraq will most probably be delayed.</p> <p>Dnevni Avaz pg 4 'There is no money for mission to Iraq' – In a statement for Dnevni Avaz, BiH Council of Ministers Chairman Adnan Terzic confirmed that there was no money foreseen in the state Budget for military mission to Iraq. <p>SPRS on Mikerevic</p>	<p>Nezavisne Novine, pg. 10 'Inappropriate Mikereivc's statement' by V. P., Glas Srpske, pg. 2 'People is not forgetting' by M. Mi. – SPRS has assessed Prime Minister Dragan Mikerevic's statement, saying that he is in no hurry to appoint a Minister of Interior, as inappropriate in time when crimes and corruption are expanding in RS. <i>'Mikerevic is in no hurry because international representatives in BiH want a professional to be appointed to this position, which would mean an equal treatment of all and would also mean that some members of parties on power might come under a strike of the Ministry of Interior as well'</i>, a press release of SPRS reads. GS article brings two interpretations of the statement:</p> <p>RTRS and FED TV should be abolished and reduced down to a form of channels that would serve BHT.</p> <p>Everyone in BiH must wish for same things as Sulejman Tihic.</p> <p>A Delegate at HoP of BiH Parliamentary Assembly, Bosko Siljegovic, says Serb people in RS does not see BHT as their informative house, since its editorial policy ignores the Dayton organisation of BiH. He says Croats too do not see BHT as their informative house and this has become a sensitive political issue.</p> <p>Krstan Simic (SNSD) and Petar Kunic (President of the Democratic Forum) think BHT is not adequately reflecting interests of all three peoples.</p> <p>Ognjen Tadic (SRS “Dr. Vojislav Seselj”) says BHT is conducting an anti-Dayton editorial policy and is “suffocating” languages of BiH constitutive peoples.</p> <p>The article carries the inset ‘Rating’, in which it quotes the Head of the Office of RTRS Director, Sasa Risovic, as saying that establishing of a single TV service in BiH is unnecessary. He said there is already a single PBS in BiH, composed out of three equal and independent broadcasters who successfully cooperate with each other.</p>

Mariofil
Ljubic**

Vecernji List pg 5 'Authority's moves endanger independence of ombudsmen' by E. Medunjanin – In an interview given to VL, BiH ombudsman **Mariofil Ljubic** says that in general BiH ombudsmen cannot be satisfied with the situation when respecting of human rights in BiH are in question. If the things remain as such it might be fatal for the work of such an institution, which must be completely independent without political and other influence. We shall warn representatives of this situation during adoption of the Law."*
