Head of EC Delegation to BiH Michael Humphreys noted that the TRS authorities were working on the police reform issue but that they should make a proposal in accordance with EU principles as soon as possible. The Office of the High Representative [OHR] said on Saturday that the new RS Government's police reform proposal was not in line with the principles set out by the European Commission. The OHR said it regretted this fact and urged the RS authorities to "immediately present a new proposal which will be in line with the European Commission principles", OHR Spokesman Mario Brkic said. FBiH Police Director Mevludin Halilovic says that the new RS offer did not even look like an European model of police organisation. SNSD Executive Board Chairman Nebojsa Radmanovic reiterated that his party had not participated in making the new RS police reform proposal since they considered it senseless. SP RS leader Petar Djokic believes that it would have been better if RS Government just said it was accepting the three European principles without going into further details.</p> <p>Dnevni Avaz cover page, pg 2 also covered the issue. In addition, the daily quotes BiH CoM Chairman Adnan Terzic as saying that he has not received the full text of the new RS proposal but that the good thing is the talks on the issue have not been stopped.</p>
