**RS Police says
Potocari
explosive was
intended for
smuggling**

RTRS by Biljana Knezevic– RS police has obtained information showing that around 35 kg of explosives found on 7 July near the Potocari Memorial complex were not intended to be activated during the 11 July commemorative gathering but for smuggling. The chief of crime police of the Banja Luka Public Security Centre, **Gojko Vasic**, said that the police had so far not found the person who planted the explosives, adding it had some evidence linked to the identification of the perpetrator and believed that this would help them catch the person soon. Vasic told a news conference in Banja Luka the police believed that the facilities in Potocari were used as a temporary explosives storage as they had been abandoned for a while. *"All this indicates that some smuggling chains – which are either supplying explosives from the FBiH via the RS to Serbia or from Serbia via RS to the FBiH – are operating in this area. This calls for active involvement of the SIPA, DGS, OSA, RS MoI, FBiH MoI and Serbian MoI, in order to sever these channels,"* he said. This case is still in the focus of RS MoI's investigation, an about 40 people have been interrogated so far. As for the marking of 10th Srebrenica genocide anniversary, RS MoI says that the incidents were avoided thanks to police professionalism: *"Highly expressed ethnic tension was noted, as well as negative tensions, manifested trough carrying of war flags, shouting out war cries and numerous messages and threats to the police, whose members were called chetniks and murderers,"* said **Radovan Pejic**, Spokesperson of RS Police Director. As for the delay in arrival of about 100 buses with members of victims' families, RS police denies it was intentional done. Chief of Traffic Department, **Zeljko Bosnjak** said that problems have occurred due to the fact that number of participants was much bigger than the available space. **PINK, BHT1, Hayat, FTV, Oslobodjenje** pg 2 'Explosive in Potocari intended for smuggling', mentioned on cover, by O.V. pg 10 'Beside provocations, operation 'Srebrenica 2005' successfully completed' by O. The RS Government expects the BiH Presidency to present its position on the police reform <i>"instead of one member of the BiH Presidency disputing the proposal to find the solution at the level of BiH institution".</i> 'Tihic's views demonstrate his political inconsistency because he was not guided by the same principles on the defense reform issue, which is being implemented at the level of BiH institutions', the RS Government stated. RTRS by Bojan Kecman – <i>"I want to believe that Mr. Tihic doesn't want us to return to the area of politicising certain reforms in BiH, because that directly slows down the process in BiH...so, RS Government is to maintain its stance and demands the police reform to be continued within BiH Institutions"</i>- said RS Prime Minister, Pero Bukeylovic. Seada Palavric, Head of SDA Caucus in BiH Parliament stressed that police reform has to be carried out as soon as possible, along with passing of the law on Public Broadcasting System. <i>"In fact, I see police reform in two levels.
